For Nearly a Half Century Cameron's Leading Paper and Still Far Ahead

VOLUME 42

CAMERON, MILAM COUNTY, TEXAS, THURSDAY, MAY 22, 1919

NUMBER 3

SOLDIER'S REASON FOR WANTING VOTE

Chas. M. Dickson Who Filed Suit In
Bexar County Gives Full Ex-
planation.

To Dallas News.
San Antonio, Texas, May 9.—At the risk of being accused of seeking the limelight, I wish to make, publicly the following statement:

Because of the fact that I recently filed suit in one of the District Courts of Bexar County to establish my rights under the Constitution, as a discharged soldier, to vote in all elections held during 1919 without having paid a poll tax for 1918, an erroneous impression has gone out that my suit was an anti-prohibition and anti-woman suffrage movement.

I have even been approached by persons living in other parts of the State, asking me to continue my efforts to defeat statewide prohibition and woman suffrage.

I dislike to be classed as either a "pro" or an "anti," for there are a bunch of prominent crooks, lunatics and demagogues to be found under each classification. However, I am more of a "pro" than I am an "anti," and desire that every discharged soldier (pros and anti alike) have the right to vote in the coming elections. I don't know how the soldiers will vote, but my vote will be against the saloon and it will favor woman suffrage.

As for woman suffrage, I hardly think the soldiers will be especially anxious to deny the ballot to the Salvation Army lassies, who followed them into "No Man's Land," or to the Red Cross nurses, who administered to their suffering and dying comrades upon the field of battle, or, even to the good woman who remained at home and did a man's work in factory, shop and office.

Chas. M. Dickson,
Captain, Air Service.

RAINBOW DIVISION HERO BACK FROM FRANCE

Haskell Kidd, son of Prof. and Mrs. L. H. Kidd, is in Cameron, having just returned to the United States from France.

Mr. Kidd was with the Rainbow Division and saw 18 months service with the A. E. F. About two weeks ago he landed with his division at New Port News. He was in the big parade given by the Rainbows in Houston and then went to Camp Travis where he received his discharge last Friday.

Friday night he attended a banquet given in Austin to his company. He had enlisted in the service at Austin. From Austin he came to Cameron Saturday and is at home with his parents.

Ships Fine Duroc Jersey.

E. A. Barmore, the premier hog man of Milam county was in from his ranch at Maysfield Monday for the purpose of filling an order for a five months old Duroc Jersey gilt. The little pig was going to Ruby Wilkins at Detroit, Texas, and was a peach. One little pig, we will say one little real pig, raised with less trouble than a three dollar razor back up to five months of age and bringing \$35.00 is not bad.

Centenary Drive A Success

The Centenary drive began in the Southern Methodist church Sunday morning and it has been pronounced a decided success.

Prof. L. H. Kidd is the superintendent of this drive in Cameron and his forces have been actively engaged in their work this week. They have reported that the Cameron church is over the top. Mr. Harbin is in receipt of a letter from R. M. Kelly of Longview expressing his appreciation of the work done by the Cameron church. The Marlin District of which Cameron is a part is the only district that went 100 per cent for the Sunday School feature of the Centenary. In recognition of this, Mr. Harbin received a telegram of congratulations from the Missionary Secretary of the Southern Methodist Church at Nashville.

AMENDMENT ELEC- TION SATURDAY

Four Of Most Important Matters
Ever Before People Will Be
Decided Upon.

Four of the most important constitutional amendments ever voted on by the people of Texas are to be presented to them next Saturday, May 24th. These are the amendments providing for State-wide prohibition, equal suffrage, an increase in the salary of the governor of the state and the home owning amendment. This means that next Saturday every qualified voter of Milam county will be called upon to cast a ballot for or against these issues that have been thought out by the brainiest and best men of our state.

The amendment that is attracting the greatest attention is one dealing with making Texas dry—the State wide prohibition law. The last time this was voted on by the people of Texas was in 1911 when the anti-carried by 4,000 majority. Since then the ranks of the prohibitionists have grown tremendously. Many of the anti supporters have come over to the pro side. And today we feel confident that May 24th will see John Barleycorn's death and burial. We must remember that the old fellow is not dead yet and that he is certainly not sleeping but is hard at work and watching every chance to land a victory over the death the pros have planned for him.

Another amendment of great importance is the one regarding woman suffrage. Some one has said that woman suffrage and prohibition were a pair of prancing white horses hitched to the same wagon. The suffrage amendment simply changes the constitution so that it gives women the full right of citizenship of the United States. If we stop to think we see that woman is just as qualified to vote as man, first because two out of every ten tax payers in the state are women, second because women are the equal of men in intelligence and third on account of the wonderful way woman has responded to her country's call. And last years primaries should convince those who are not convinced by the above. For the women certainly showed in these that they were after clean politics and that they were willing to go to some trouble to find the best men for the offices, and that they were willing to vote when given the opportunity.

If the home owning amendment is adopted it will give the legislature power to give or lend, or authorize the giving or lending of the credit of the state for the purpose of assisting citizens who are heads of families to acquire or improve their homes upon terms and conditions prescribed by the Legislature and also allowing the creation of agencies to carry on this work and providing for the exemption of such homes from taxation. The advocates of this amendment think it would be a wonderful thing for the state as it would put within reach of every head of a family in the state a farm home and would result in the settlement of the vast areas of unutilized and fertile lands within our borders.

The fourth amendment provides for an increase in the governor's salary from \$4,000 to \$10,000 a year. Everybody readily see the necessity for the raise in the salary. Such a salary as this makes it impossible for men of limited means to accept the position. Our governor is the poorest paid governor of any of the governors in the Union. He gets less money than many of the officials in our cities, and also less than a great many state and county officers. Let the people of the great state of Texas give its highest official a decent living at least.

All of the issues involved in these amendments are important and vital to our states' progress and our people's happiness. Let's make May 24 a red letter day in our States' history by casting a ballot that will make the world sit up and say that Texas has waked up and is now the brightest star in the flag.

CAMERON HIGH SCHOOL CLOSES SUCCESSFUL TERM

Another Large Class of Splendid Young Men
And Young Women Will Go Out Bet-
ter Prepared to Fight Life's Battles--
Twenty-Nine in Senior Class.

May thirtieth marks another year in the work of the Cameron Public Schools. During the years of its existence many hundreds of students have gone out from its doors to take their places in the world's work and in this great field they are bringing much credit to their Alma Mater. Each year at this time a class of young men and women pass out of this institution with a diploma under their arms, thus showing that they have completed the work required by the school and are now going out to enter the larger plane of life.

This year's graduating class is composed of twenty-nine members—sixteen girls and thirteen boys. These seniors of 1919 are an unusually strong class and are a credit to our school and to our town. They have introduced much that is new and good into the life of the school. Enthusiasm, or in the parlance of the day, pep, has been one of their chief characteristics. Everything they have entered into has gone off with a snap because of this thing called "pep." This quality, if we may name it such, did not come to light in their senior year alone, but they have had it all through their school days, from the first grade through the eleventh. Some classes, as you know, just naturally attract the attention and interest of the entire citizenship, and this is one of those classes.

Among this years' graduates we find a number of talented musicians—both instrumental and vocal. Several members of the Cam-Hi Orchestra were drawn from this class. Then the glee club known as the Dixie Girls is composed mostly of senior girls. In athletics the class also contributed its quota of players. It furnished several of the stars on the gridiron, the diamond and the basket ball field and as boosters and yell producers they could not be excelled. Talent was also found among its members for amateur theatrical productions which were given from time to time during the year. The senior class also responded to the different war time campaigns and calls.

Besides all these outside activities which tend to keep both Jack and Jill from being a dull boy and girl, these young people have made good records in their studies. They have helped to establish in the school student control and the honor system. They have fostered literary societies. Through the use of the school library and the outside reference books they have gotten an excellent taste for and knowledge of good literature.

The teachers of the young people have done everything in their power to make this class of all round boys and girls. They have tried to instill into them during the years of their training not only the rudiments of education, but also high ideals and aspirations. Much credit is due Mr. Watts, our former superintendent, Mr. Kidd, our present superintendent and every teacher that has touched the lives of these seniors, for turning out such a splendid lot of young American citizens-to-be.

The commencement exercises this year will begin Friday night, May the twenty-third when Misses Brougher and Goddard will stage the charming little operetta, "Miss Cherry Blossom." This is to be quite a spectacular affair in scenic effect, costuming and musical interpretations. The cast is composed of fifty young musicians of the Cameron High School. The proceeds of this play are to be used in paying for the musical instruments recently purchased for the school.

Sunday, May twenty-fifth, the commencement sermon will be preached at the Methodist church by Rev. W. R. Hall of Milford. Mr. Hall having held the Presbyterian pastor-

ate in our city a year or so ago, and at that time having endeared himself in the heart of all, needs no introduction to the Cameron people. Besides the sermon the following musical program will be carried out by the singers of the city:

Processional—Coronation March from "The Prophet"—Meyerbeer.
Awakening Chorus—Gabriel—By Choir.
Invocation—Rev. B. B. Blaylock.
Hymn—Holy, Holy, Holy.
Scripture Reading—Rev. W. G. Harbin.
Pilgrim's Chorus from "Tannhauser" Wagner—Choir.
Commencement Sermon—Rev. W. R. Hall.
Hymn—Faith of Our Fathers—No. 415.

Benediction—Rev. W. R. Hall.
Director—Miss Bonnie Brougher.
Pianist—Miss Ruth Goddard.
Monday night at 8:30 the grammar school graduation will take place at the high school auditorium. On this occasion the pupils of the seventh grade will receive diplomas of graduation from the grammar school department. Next year they will enter high school and a stronger, finer class than these have never entered high school before. The program for the affair will be very interesting.

The seniors will have class day exercises Thursday morning at ten o'clock on the high school campus. Quite a nice program has been arranged for this. At this time an Alumni Association for the Cameron Public Schools will be formed. This is one of the new things this class is introducing into their commencement program, and it is such a nice idea that it will receive a hearty response by the former graduates of this institution. Invitations have been sent out to members of all the other graduating classes of the Cameron High School. The members of the organization will end their meeting with luncheon on the grounds.

Friday night at 8:30 the big event that all these other events have been working up to will take place. This, of course, will be the graduating exercises of the Senior class. A splendid program has been arranged after which the young people will be given their diplomas and awarded the scholarships.

The following is the roster of the class:

Berry Vernon Roberts
William Clytus Ford
Nadine Alwyn Bragg
Esther Mae Fielder
Louis James Logan
Lulu May Kennon
Harriet Ada Henderson
Lillian Owen Bacon
Albert Collins
Walter B. Adams
Annie Lee Peoples
Irene Cheeves
Florence Irene Williams
Homer Hefner Peel
Katherine Adeline McCall
Ruth Burke
Elsie Clara Horstmann
Viola Marek
Ludmilla Rosalie Matula
Alfred Knox Tyson
Raymond C. Thompson
Elliott W. Atkinson
Louis James Epperson
Mary Louise Green
Emily Louise Batla
Naomi D. Pardo
William Homan Barge
James L. Coleman
William Cecil Barmore

The last week of school work will begin next Monday. All day Monday and Tuesday morning will be devoted to final examinations in all the grades. Wednesday morning the classification and assignment for the next year's work in the eighth and ninth grades will be made. The work

A POTATO CURING PLANT IS ASSURED

Local Stock Company To Organize
And Erect 20,000 Bushel Plant
At Once.

The long talked-of sweet potato curing plant for the city of Cameron has at last become a reality. The establishment of a plant of this character was brought up some eight weeks ago at a meeting of the Cameron Commercial Club and has since that time been discussed upon several occasions. The club went so far one time as to delegate two members and agree to pay their expenses to see one of the Wells system plants in operation, however, this trip was never made. The project died down until last week when Mr. J. A. Bohart, a representative of the Southland Sweet Potato Curing Plant and Storage Association of Dallas came to Cameron with a determination of erecting a plant. The matter was taken up with a few of the local business men and he appeared before the Commercial Club again with the matter, however, it was not urged as a matter for the club to take up but merely for it to endorse, which was done.

After a couple of days work in the city the announcement has been made that a stock company has been organized with a capital stock of \$15,000 for the purpose of erecting a 20,000 bushel curing plant of the Wells system. The incorporators are B. P. Atkinson, Oxsheer Smith, Robt. McLane and Chas. Terry.

The location of the plant will probably be on the corner lot across from the jail adjacent to the Santa Fe rail road yards.

The Herald has taken the matter of a story covering the details of the plant and its operations up with the manufacturers and hopes to be able to publish next week the complete details of the system from beginning to end.

REV. B. B. BLAYLOCK RETURNS FROM BAPTIST CONVENTION

Rev. B. B. Blaylock returned Tuesday from Atlanta, Ga., where he attended the Southern Baptist Convention.

Mr. Blaylock reports that this was the greatest Southern Baptist Convention he ever attended. That the spirit of the meeting was marvelous and that the keynote sounded during all the sessions was the wonderful opportunity that the times offered and how the Baptist people must do their share in meeting these. A \$75,000,000 budget for the next five years was planned.

Murdock Hotel Running.

Mrs. Laura Scott has recently moved to Cameron from Merkel, Texas, and has opened up the Murdock Hotel across the street from the Jeter Lumber Company. Her daughter, Miss Lois Balch, has accepted a position with Wm. R. Rogers as stenographer.

of the tenth and eleventh grades of next year will be planned on Friday morning. The pupils of the grades will also be assigned their work for next year on Friday. The children will not report except as outlined above after Tuesday noon.

This has been a splendid year in the Cameron Public Schools. Many new things have been brought in and the general tone of the school has been helped. Mr. Kidd, our new superintendent, in his first year has helped in many ways to enlarge and strengthen our already good school system. He has added to the curriculum and also applied to the State University for more affiliations. Under his guidance the library for the high school has been built up and a splendid collection of supplemental readers and reference books have been secured for the grades. Athletics have also been given a boost. Our baseball team has an undefeated record to its credit. Mr. Crawford is largely responsible for the success of the athletics and also for the splendid Cam-Hi Orchestra for he was the director of both of these.

COMMERCIAL CLUB TO HAVE A HOME

Plans Outlined To Procure Building
For Purpose Of Holding
Meetings.

At the regular meeting of the directors of the Cameron Commercial Club held Friday Night, May 16th, 1919, a roll call showed the following officers and directors present: Robt. McLane, President; Geo. T. Graves, Treasurer; T. N. Herring Secretary. Directors: J. W. Coleman, J. T. Parma, R. H. McIntosh, J. D. Dobbins, John E. Mangum. Committee Chairmen: T. F. Hardy, Monta Thomas, T. B. Wooten, W. M. Cobb, B. P. Atkinson, Frank Lesovsky, O. M. Smith.

Minutes of previous meetings were read and adopted.

Under the head of report from officers the secretary reported that the better mail service project was to be reported on by the postmaster at an early date and that as soon as the matter was heard from a further report would be given.

J. W. Coleman, chairman of the Wilson-Ledbetter Park committee reported that a number of designs for an entrance gate were in possession of the committee and would be submitted to Aunt Lizzie Wilson for approval, after this the committee would go before the council with same and then make a further report.

W. O. Triggs, chairman of a special committee to make plans for the establishing of a 40 piece brass band in Cameron reported that a committee meeting had been had and outlined that funds to the amount of \$400 was needed to carry the project through the summer and suggested that the committee be instructed to raise this amount in a lump sum that the matter might be settled in detail.

During the discussion of the band project Prof. J. N. Crawford reported to the Club that the upstairs of the old Law-Sprinkel building, belonging to Mrs. McHenry would be available for \$20.00 or \$25.00 per month and would be a desirable location for a practice room. This suggestion brought up the question of the Club renting this building for a term of years and using same in connection with the band room as a home for the Cameron Commercial Club. During the discussion of the matter it was brought out that the club's treasury had plenty of funds on hand to equip a place of this kind in a very satisfactory manner and the project was favored by those present. The matter was disposed of by a motion to appoint a committee to look into the matter of renting the building, also of the cost to furnish same satisfactorily.

The committee appointed was O. M. Smith, chairman, J. W. Coleman, William O. Triggs and the Secretary.

The name of S. E. Brogden was proposed for membership in the club by T. B. Wooten and upon motion he was duly elected.

J. T. Parma brought up the matter of a promise the club had made to the Santa Fe several months ago with reference to the building of a side walk leading from the rear of the station to the walk at Mondrick's corner. The matter was discussed and the Civic Improvement Committee instructed to look into the matter.

Mr. Bohart, representing the Southland Sweet Potato Curing Plant was present and made a short talk on the matter of establishing a plant in Cameron. He related that he did not expect anything from the Club other than it's indorsement, and this, he said, I am sure I have.

Mr. J. S. Doane of Bryan, proprietor of the Auditorium Hotel was a visitor at the directors meeting and made a splendid talk for the good of the order.

Manager A. Robinett of the United States Railway Express Company requests the announcement that the new office hours are from 8:30 a. m. to 5:30 p. m. with an hour closed from 12 to 1 for lunch. This is an order received from headquarters that the employees might comply with the new eight hour schedule for government employees.

Literacy Law Governing Election

May 24, Provides Voters Must Speak

English and Can Not Be Assisted

Austin, Texas, May 17.—The Dean law, which prohibits the giving of assistance to voters who are not physically disabled, is now in effect and will control election officials in the election to be held May 24 on the four constitutional amendments.

This law followed the testimony taken in the Glascock-Pharr contested election case, during which it was shown that for years it had been the practice in the Rio Grande section to vote Mexicans who could neither speak, read, write or understand the English language; and that a majority of the officials in many of the counties in the valley could not understand or speak English.

The law is now being contested by two naturalized Bohemian citizens of Bell county, but this contest will not affect the act so far as the pending election is concerned.

Text Of The Law.

The text of the law follows:

Be it enacted by the legislature of the State of Texas:

Section 1. That article 3003, Revised Civil Statutes of 1911, as amended by chapter 30, acts of the fourth called session of the Thirty-fifth Legislature, approved March 23, 1918, be so amended as hereafter to read as follows:

"Article 3003. Not more than one person at the same time shall be permitted to occupy any one compartment, voting booth or place prepared for a voter, nor shall any assistance be given a voter in preparing his ballot, except when a voter is unable to prepare the same himself because of some bodily infirmity, such as renders him physically unable to write, in which case two judges of such election shall assist him, they having been first sworn that they will not suggest, by word or sign or gesture, how such voter shall vote; that they will confine their assistance to answering his questions, to naming candidates, and the political parties to which they belong, and that they will prepare his ballot as such voter himself shall direct; provided, that the voter must in every case explain in the English language how he wishes to vote, and no judge of the election shall use any other than the English language in aiding the voter, or in performing any of his duties as such judge of the election, and in all cases where assistance is given hereunder two judges of the election shall assist such voter, they having first sworn that they will not suggest by word, sign or gesture how such voter shall vote; that they will confine their assistance to answering questions in the English language, to naming candidates and,

A converted German liner bearing a negro stevedore battalion ran into a storm soon after leaving port and in spite of the anticipation of landing again on American soil the troops on board were anything but in a joyful humor. There were no meals prepared, for no one desired to eat. The whole unit was "in quarters" and the ocean continued to roll.

A private approached the first sergeant and asked permission to speak to the captain.

"What you want to see the captain for?" the "top" asked.

"I'm gwine to tell that captain if he wantes to get this here battalion of niggers home alive he'd better call this here ocean to attention."

PROHIBITION MEETING AT SHARPE

A discussion of the amendments to be voted on next Saturday was had at Sharp last Sunday night. A party of Cameron folks went out to do the speechmaking and the report is that a very enthusiastic meeting was held. The party included A. H. Baskin, F. E. Jackson, W. O. Triggs and U. S. Hearrell. Mr. Hearrell is credited with a very fine speech, his main line of talk being on the suffrage amendment and it has been reported that he made a hit with all the feminine population of that fair little city.

The following also accompanied the speakers to Sharp: Sam Law, Roy Law, Mike Coleman and Joe Rienke.

ROY EPPERSON MARRIES IN SAN DIEGO

Word was received last week announcing the marriage of Roy Epperson, formerly of this city but now in the service and stationed at San Diego, Calif., and Miss Annette Persinger of San Antonio, at San Diego on Friday, May 16th.

Lieutenant Epperson has recently signed up for two years work in the Philippines and he and his bride will leave in a few weeks for the Islands. In the meantime they will come to Cameron on a visit to their parents, Dr. and Mrs. A. S. Epperson.

The Herald and the people of Cameron wish this young couple the happiest life possible.

Mrs. Tom Jeter of Jones Prairie spent the week-end in the city.

17 names are on the list. Of the remaining 11 men whose names do not appear, 8 boldly stated they were pros, 3 being under age, did not sign, while five of them declined to sign for various reasons. Three of the 28 men stated that they were antis. One of them saying he believed it made the town better to have liquor. Also note the fact that seven A. E. F. men are on the list. This is from a total of 8 A. E. F. men called on. The A. E. F. men all frankly stated that you will have no trouble in getting the A. E. F. boys to sign.

SOLDIERS OF MILAM MAKE STATEMENT

Large Majority Of Boys Who Fought For Right Take Stand For Prohibition.

We, the undersigned, having been soldiers and sailors in service in the United States Army and Navy during the Great War, resent and hereby refute the statement that has been made for political purposes to the effect that the soldiers and sailors are against the prohibition amendment to be voted on next Saturday. We hereby declare ourselves in favor of that amendment, and will so vote next Saturday. This is our answer to this political canard.

Out of a total of 28 men called on

To the Citizens of Milam County

Milam county is justifying our confidence that her people will come to the front and support our development for oil. Checks from as far away as Galveston are coming in for this stock. We feel confident that after thinking over the facts as we have presented them to you in our recent letter, you will send in your reservation to forward to conclusion the completion of drilling in a real gusher.

Our driller, Mr. Stitt, who is drilling the test on our lease on the Sam Brooks farm near Cameron, reports the formation and drilling conditions as favorable, with tabulations agreeing faithfully to the advanced geological report.

The formations are harder as the drill goes down at 300 feet which shows a good cap rock for the reservoir of oil which we expect to find underneath the structure there. We have arranged for additional acreage besides the 12,000 acres we have at present. This acreage is well recommended to us by our geologist Mr. Keaton, whose judgment we value as he has had a life time experience in practical oil geology and development. He should know good oil lands when he sees them. The success of petroleum geology, according to Mr. Keaton, is about 80 per cent safe in "wild cat territory" such as this country is.

Therefore your investment with us is a "good play" for oil production with the added advantage of our large lease holdings which enable us to facilitate more cheaply our drilling operations. Aside from our present active drilling program for two 1500 feet tests, we are making active arrangements to get Eastern capital interested with us to drill a deep test to a depth of 3,000 feet. This test we expect to have commenced within 100 days after leases are gotten up satisfactorily.

As compared with other oil development propositions in new territory, we are absolutely convinced that our plan of operations combined with the territory to be developed, far excels anything up to this time that is being developed in this country.

We extend this invitation to you to come in with us for at least a small block of our stock. We are sure you will own an interest with us that holds big possibilities for handsome dividends, and in event of our success you will have a comfortable feeling by knowing that you have helped to put Milam county in her proper place among the well known oil fields of the country.

Phone or wire your reservation at our expense at once. We may strike oil any day, and if so we reserve the right to advance the price of stock or take it off the market. We inclose an application blank for your convenience to mail in to us providing it is inconvenient for you to wire or phone.

Thanking you in advance for your favor, we are,

Yours for development,

CAMERON OIL & REFINING CO.

By Wm. HENDERSON, President.

FORMER CAMERON GIRL TO MARRY IN SHERMAN

The following invitations have been received in Cameron:

Mr. and Mrs. Robert F. Pool request the honor of your presence at the marriage of their daughter Lorene

to Mr. Berry Benson Cobb on Thursday, the fifth of June at four-thirty o'clock nineteen hundred and nineteen Six hundred and ten S. Crockett St. Sherman, Texas.

This invitation comes as an interesting bit of news to the people of Cameron as Miss Lorene spent most of her childhood in Cameron and we still think of her as a Cameron girl. She has visited Cameron frequently since the family moved away some years ago. Miss Lorene now lives with her parents, Mr. and Mrs. R. F. Pool in Sherman.

Miss Pool is a charming, vivacious young lady and is loved by everyone. The announcement party was given by her sister, Mrs. Carl Pool last Saturday in Sherman.

Forty-Two Party.

Mrs. H. F. Smith, Jr., gave a beautiful butterfly party to the Forty-Two Club last Thursday afternoon at the home of her sister, Mrs. R. A. Thomas.

Green, pink and yellow were the favored colors and these found expression throughout the house decoration and menu. The flowers on this occasion were gladioli, sweet-peas and nasturtiums and these were prettily arranged throughout the house. Butterflies in various hues and shades were used extensively and attractively in table coverings, talley cards and score pads. The 84 favors were little butterfly pins.

For success in the games Mrs. Roy Baskin received two dainty butterflies perched on vases of flowers. Mrs. B. P. Atkinson was given a beautiful bunch of gladioli for the consolation prize. After the games the hostess assisted by Mesdames R. A. Thomas and O. M. Smith served a delicious two course luncheon with butterfly decorations.

Mesdames S. M. Burns, Jr., and Henry Hefley were Mrs. Smith's guests for the afternoon.

After the social hour, a business session was held and it was decided to disband the club for the summer. They will meet again next October and their first meeting will be with Mrs. Oxsheer Smith.

MASONIC LODGE HOLDS BIG MEETING IN CAMERON

At a called convocation of Little River Royal Arch Chapter No. 66, held in lodge room in Cameron, last Thursday evening, May 15th, the conferring of the Royal Arch degree upon the last of nineteen candidates was completed. And there were present upon this occasion visiting companions from Rosebud, Calvert, Rockdale, Rogers, Hearne, Anderson, Austin and Franklin. When this was finished, to make complete the happiness of the convocation, there was contributed by the lady members of the Order of the Eastern Star Chapter No. 553 of this city and by the lady guests, a banquet which was prepared and served by them in the banquet hall in a most splendid manner. The following menu was enjoyed:

Ham and Chicken Salad
Olives Pickles
Sliced Tomatoes
Fresh Irish Potatoes
Bread, Coffee

Ice Cream Cake

The tables were decorated in great bowls of nasturtiums. Besides a large number of the Cameron Masons and their wives, twenty-seven out of town Masons enjoyed this elegant function.

The ladies of the Eastern Star and the wives of the Masons were guests of the Order at the Wonderland Theater before time for the banquet.

Mrs. Paul Porter of Branchville was in the city Tuesday.

FRED W. DAVIS URGES SUFFRAGE AMENDMENT

The following interview has been furnished by Fred W. Davis, Commissioner of Agriculture for Texas: "Every sane person subject to the laws of a commonwealth should have a voice in making the laws governing such a commonwealth and in selecting those who are to administer same.

"Men's work and women's work are fundamentally classified by nature and long usage. Our laws are designed, however, to cover the duties and responsibilities of both spheres, and the respective public interest of both sexes will follow their inclinations and responsibilities. The public thought of men is differentiated. Some men are primarily interested in legislation covering finance, some jurisprudence, home agriculture, etc. Women will naturally take public interest in laws regulating the conditions of the home, the school, the

workshop, etc., such interest not only being proper, but in many cases badly needed.

"I would deprecate any material change in the relation of the sexes, but would through her vote, have woman's thought and influence more fully reflected in the rules of action by which we are governed, politically and socially."

WANTED—To rent two unfurnished rooms for light house keeping. Desirable couple without children. Tom Whites, Phone 47.

Six O'clock Dinner For Graduate.

Last Friday evening Mrs. T. S. Henderson complimented her daughter Miss Harriet, who is one of the high school graduates this year with a six o'clock dinner.

The guests of the dinner were special girls friends of the honoree drawn from the junior and senior classes of the high school, and quite a beautiful bevy of girls they were and what a lovely picture they made as they sat around the dining table in their beau-

tiful evening dresses. The centerpiece for the table was a gold basket filled with wonderful Easter lilies and ferns, the handle of the basket being topped by a large bow of the class colors, purple and gold. Vases containing pansies, the class flower, were also on the table.

The places of the guests were marked by dainty fan and boat cards. A five course dinner was served and between courses Miss Louise Green, as toastmistress introduced the following clever toasts:

Heliotrope for Devotion—the High School.—Miss Katy McCall.
Pansies for Thought—The Faculty.—Miss Owen Bacon.
Sweet William—The boys—Miss Madie Weaver.
For-get-me-nots—The Juniors.—Miss Esther Fielder.
Rosemary—For remembrance—The Seniors.—Miss Mildred Chambers.
My Garden of Beautiful Flowers—Miss Harriet Henderson.

After the toasts, Mrs. Henderson, in her charming way, presented each girl with a bouquet of flowers, making each a little speech telling why she selected that variety of flower for her. The guests of the evening were: Misses Owen Bacon, Louise Green, Elsie Horstmann, Esther Fielder, Madie Weaver, Mildred Chambers, Katie McCall, Irene Cheeves, Nadine Bragg, Annie Lee Peeples, Agnes Henderson and Juanita Caldwell.

After the dinner, the young ladies attended Miss Brougher's recital. From here chaperoned by Mr. Kidd, the serenaded their friends, after

singing themselves hoarse, the girls went to Miss Katy McCall's for the rest of the night, where a jolly good time was had and very little sleeping done.

Presbyterian Church.

We will have no preaching service Sunday, May 25, at the morning hour by reason of the union service at the Methodist church. In the evening at 8:30 the usual service, at which time we hope to have Rev. W. R. Hall, former pastor to preach for us.

H. R. MacFadyen, Minister.

Impounded in the city of Cameron one bay mare mule, 12 or 15 years old, 15 hands high, no brand, scar on left shoulder, crop on left ear. One mouse colored horse mule, 12 or 15 years old, no brand, saddle marks, 14½ hands high. J. E. Holtzclaw, City Marshal, Cameron, Texas. 3 2tp

Red Cross Sewing Rooms Close
Tuesday afternoon saw the winding up of the sewing department of the Cameron Red Cross.

A large crowd of women gathered at the rooms and made button-holes in the last of the refugee garments. After they finished their work they were refreshed with ice cream and cake.

The women of this town and community have done a wonderful amount of sewing for the Red Cross. It has

been a free-will offering and the ones who have had a part in it have enjoyed it the most in the world. Many of these faithful women deserve more than this passing word for they have been untiring in their work. But at this time we will only take occasion to mention the names of Mesdames R. P. Jeter and W. H. Henley who as chairmen of this work have stayed with it to the end.

Mrs. Tucker's Recital.

The voice and expression pupils of Mrs. Myrtle F. Tucker had their recital Tuesday night, May 20th at the high school auditorium.

All ages and sizes of children besides several grown-ups took part in this program. The program included

vocal and instrumental selections and readings. Several pianologues were given, and sweet strains of the violin obligato were heard frequently during the performance.

The young folks did their parts well and we are sure the teacher was very proud of them. A very pleasant evening was spent by the large crowd who attended the recital.

The friends of Dr. A. C. Scott of the Temple Sanitarium will be interested to know that his daughter, Miss Lucille, has just returned from France where for several months she did Red Cross work. Miss Lucille was business manager of three hospitals over there.

Charter No. 4086.

Makes Such Light, Tasty Biscuits

Just let mother call, "Biscuits for Breakfast!" We're sure there's a treat that can't be beat in store for us — light, tender biscuits — toasty brown and all puffed up with goodness! For mother is sure of her baking powder — Calumet. She never disappoints us because

CALUMET BAKING POWDER

never disappoints her. It's dependable. Results always the same—the best. Try it.

Calumet contains only such ingredients as have been approved officially by the U.S. Food Authorities.

You Save When You Buy It.
You Save When You Use It.

HIGHEST QUALITY
AWARDS

TRADE MARKS.

Did you ever consider the commercial value of certain well known trade marks, such as: "The Gold Dust Twins," "Uneda Biscuit," "Wrigley's Spearmint" and other signs, symbols and words which are familiar to almost every man, woman and child in America?

The value of these trade marks can hardly be estimated in dollars and cents. Then did you ever think what has given them this value? "There's A Reason." The goods sold under and protected by these trade marks are possessed of merit of the highest order, and when a customer pays his money he receives one-hundred-cents-on-the-dollar value.

At Waco, Texas, there is a business college, supervised by Edward Toby, a practical business man and an expert accountant, which has given, for more than a quarter of a century, and is today giving to young men and women, course of study of unexcelled merit, in Bookkeeping, Banking, Telegraphy, Shorthand, Touch Typewriting, Adding and Posting Machines, the Calculator and all Modern Office Appliances. For this reason the students of Toby's Business College, or in other words, the young men and women possessing the Toby Trade-mark are able to secure and hold the very best commercial positions.

The business man knows when he employs a Toby student he is sure to receive one-hundred-cents-on-the-dollar service, because the said student has been given that grade of training.

This college also offers to ambitious people who cannot attend the school, mail courses in Arithmetic, English, Penmanship, Typewriting, Bookkeeping and Shorthand of the same high standard as those taught in the college. Courses which, in no-wise, should be confused with many short, worthless mail courses which are offered the public at a very small fee. Remember it is not what you pay, but what you get in return for money spent.

Why not write, today, for free illustrated catalogue? State whether you desire to attend the College or are interested in mail course work, only. Address,

Edward Toby, President, Toby's Business College, Waco, Texas.

We are proud of the confidence doctors, druggists and the public have in 666 Chill and Fever Tonic.—Adv. 18

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health. . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

COMEDY DRAMA TO
BE PRESENTED AT
THE CHAUTAUQUA

Horner System Offers an Innovation
In Megrue and Hackett's Great
Farce, "It Pays to Advertise."

"It Pays to Advertise," the comedy drama that enjoyed such a tremendous success during its run of an entire season, both in Chicago and New York City, will be seen at the Chautauqua this year, with the parts taken by many of the players who were with the original company in New York.

The generous patronage and enthusiastic receptions accorded dramatic productions of the Chautauqua has encouraged Mr. Horner to secure for this year's program the most expensive dramatic production that he has ever engaged.

"It Pays to Advertise" was hailed by the New York critics as the best comedy of the decade when it was produced there two years ago. It abounds in comical situations and keen wit. Before the curtain has been drawn five minutes, the people begin to see that they are in for an evening of real pleasure. The folks will forget there is such a thing as worry, debt or misfortune in existence. Comfort and pleasure and laughter for two solid hours are assured.

The play is essentially American. The brand of humor is characteristic of American writers and the characters all have their prototypes in any American community. The story has to do with the efforts of the rich, self-made business man to make his idle son go to work and show a little backbone. How the son gets stirred up—thanks to the goading of a clever stenographer—how he outwits his father in business and makes a remarkable success, all these things must be seen to be really appreciated.

At the conclusion of the play you will all agree that it really does pay to advertise. The young man's success is built upon no other foundation than advertising. He creates a demand for a certain commodity—just plain soap—but he has no supply. What he does, however, is to make his father's concern buy the trade-

mark and the commercial name of the article he has advertised.

Redpath-Horner Chautauquas is paying a royalty to Roy Cooper Megrue and Walter Hackett, the authors of "It Pays to Advertise," for the privilege of using this comedy-drama for the Chautauqua program.

The Stereoscope In The War.

The information comes late, but is none the less interesting, that the old fashioned stereoscope, easily recalled by many people as an entertaining ornament of parlor tables, helped materially in "winning the war," says the Christian Science Monitor. The stereoscope gives to the combined images of two photographs of the same scene and effect of depth lacking in the single picture. It makes things stand out because, optically, the subject is looked at with two eyes, as a man looks, instead of with only one, as looks the camera. This idea was applied to aerial photography, two

pictures being taken, as if the photographic lens was first one eye and then the other, 100 yards apart, of an observing giant. And the two pictures, combined by looking at them through a stereoscope, corrected the flatness of the single photograph, revealed the relative heights of different objects, and often defeated the enemy efforts to camouflage.

Spend Your Money

with your home merchants. They help pay the taxes, keep up the schools, build roads, and make this a community worth while. You will find the advertising of the best ones in this paper.

Store Your Oil In It

If you have no other use for a silo you can use it to store your oil. (your eighth barrel.) and tanks may be scarce when the well "comes in" and no pipe line handy.

A Permanent Building

is what you want when you invest in a silo, and a silo made of All Heart Cypress and built as a Coons Cypress Silo is built is more of a Permanent Building that the house you live in.

The Coons Cypress Silo

with it's special method of construction, with no hoops to "adjust" (at a time you can't get to it); that does not need replastering every year or two; that has no guy wires in the way or to get loose, is

A Building—Not a Barrell

and is the best sleep insurance you can buy in a Silo, because it will withstand any storm that does not damage other buildings. Being made of All Heart Cypress it does not have to be "dipped," to prolong its life

Three of these Coon Cypress Silos are now in our warehouse at your service, and the cots is less than you would think—Ask us about it.

CAN YOU AFFORD TO WAIT?

Interesting News Each Week For Automobile Owners and Good Road Enthusiasts

The Nash Six

Power Plus Pride and Performance.

That is only one of the out-standing features of the NASH SIX.

The perfected valve-in-head motor, with its unusually quiet action, distinguishes it from the ordinary car.

And another one—the valve mechanism is enclosed and self-lubricating.

LET US DEMONSTRATE THIS WONDERFUL AUTOMOBILE TO YOU.

AMERICAN TRACTORS TO FARM THE WORLD

More Than 314,000 Motors For Farm Use Will Be Manufactured.

More than 314,000 motor tractors for farm use will be manufactured in the United States this year, according to the estimate of the Agricultural Department.

Ninety thousand of these tractors, representing about \$100,000,000, will be sent abroad to foreign countries and will be used to increase the crop production of nearly every country in the world.

Working with a tractor, one man can do more work than six men, thirty horses or a hundred oxen under the old fashioned methods formerly in vogue. This will make up in a large way in Europe for the shortage of men caused by the war.

The power of all tractors is derived from internal combustion engines. The fuel used is generally kerosene, though some use gasoline. Practically all have magneto ignition, because of its intense spark, simplicity and absolute reliability. It would be impossible in foreign lands to use any other form of ignition.

The sturdiness of the magneto enables it to withstand rough usage and being a self-contained generator of electrical energy, which requires no

attention or replenishing, it is made the use of American tractors possible everywhere.

Altogether, there will be about half a million American built farm tractors at work in 1920, where there were practically none five years ago. The United States leads the world in this line of manufacture.

Refinishing Gas Pump.

As is his usual way of doing things, Clyde Franklin is this week refinishing the Big Chief Sentry Bowser gasoline pump which stands in front of the Chambers-Hefley Garage. He failed, however, to replace the old name on same and instead has printed in gold leaf letters what is going on inside the building, Ford Service Station. Clyde can always be depended on to do his part to make things look better around where he stays.

REPORT OF CHEVROLETS SOLD.

Mr. Bob Daugherty of the Chevrolet Motor Company reports the following sales during the last few days. Henry Sapp, touring car; Henry Hefley, roadster; Mr. Henry Black of Jones Prairie, a touring car and F. F. Reed of Cameron, a touring car.

SAM MEWHINNEY BUYS OAKLAND.

Joe J. Michalka, local distributor for the Oakland Sensible Six reports the sale of a touring car on last Tuesday to Mr. Sam Mewhinney of Buckholts.

THE HERALD'S NEW SECTION

Beginning with this issue of The Herald it will be the purpose of the management each week to carry a section of automobile and good roads news. Our purpose in taking this action is to promote good road interests in Milam county as well as keep our readers posted on the advancement of the automobile industry, which has grown faster and larger than any single enterprise that has ever been started in the United States. We propose to give each week articles on the various makes of automobiles and their achievements, bearing especially upon those makes handled by local dealers. We shall not attempt to cover the field each week but in the due course of time we expect to treat every dealer with the same courtesy and in every manner alike.

We propose further to carry the registration of all cars in the county and the sales made during each week by local dealers.

We desire to establish a question

column and have made arrangements with one of the best mechanics in the city to answer all questions sent in. We shall select a certain number each week, the ones of most interest to all, and publish the question with its answer.

In our good roads department we propose to keep our readers posted on all road matters in the county. Milam county now can boast of an expert highway engineer, Mr. A. F. Mitchell and an assistant, Mr. S. S. Strahan, and it will be our purpose to keep in touch with these gentlemen and keep the public informed as to the progress of road building in the county.

In order to make this section of The Herald a success it will be necessary to have the cooperation of everybody interested in these matters. If you see or hear of a good story that will interest the general public we will consider it a special favor to have same and if this new venture is a success it will require this kind of cooperation.

BRANCHVILLE ROAD BEING SURVEYED

County Engineers Mitchell And Strahan Getting Data Ready For Highway.

County Engineer A. S. Mitchell and assistant S. S. Strahan are this week at work making a survey of the Branchville road district which has a total of \$45,000 available for road construction. \$25,000 of this amount was voted as a special tax and the remaining \$20,000 comes from the State and Federal aid. This highway is a connecting road between the two Meridian Highways and the road under course of construction runs from Harold's Creek bridge to the Port Sullivan bridge on the Brazos river, connecting with the Hearne pike in Robertson county.

The engineers are making this survey with the view of getting plans and specifications, after which they will be submitted to the State Highway Commission and to the Federal Highway Commission. Information is to the effect that it will require only a short time to complete this survey and other important work of this character will be taken up.

Both Mr. Mitchell and Mr. Strahan have had lots of experience on State Highways and their knowledge of the requirements of the higher officials renders their services all the more valuable to Milam county.

AUTOS REGISTERED COLLECTORS OFFICE

Registration Of Various Automobiles During Period Of Week In Milam County.

The following cars have been registered at the office of Tax Collector Bill Alex Bonds during the period of a week covering from Tuesday, May 13th to Tuesday, May 20th:

- 1587. Mrs. Alice Breacher, Cameron, Route 3, Ford.
- 1588. W. M. Phipps, Cameron, Route 2, Ford.
- 1589. Hilary Stedman, Cameron, Ford
- 1590. A. G. Hopper, Rosebud, Route 3, Saxon, 1916 Model.
- 1591. Mrs. Mattie Springer, Cameron Ford.
- 1592. W. A. Smith, Milano, Ford.
- 1593. Chas McDermott, Cameron, Ford.
- 1594. H. Lockwood, Rockdale, Interstate Truck.
- 1595. E. L. Tucker, Cameron, Chevrolet.
- 1596. J. D. Kirk, Gause, Ford.
- 1597. R. Emmett Lucky, Rockdale, Mitchell, 1912 Model.
- 1598. (John) Worley, Thorndale, Hupmobile 20.
- 1599. John Timmerman, Jr., Rockdale Ford.
- 1600. Wm. Hedden, Rockdale, Ford.

YARRELTON TO VOTE ON ROAD BOND ISSUE

Election Will Be Held Saturday For Issuance Of \$50,000.00 To Build Roads.

Much interest in being manifested in the good road bond election to be held in the Yarrelton Road District next Saturday, May 24th. This election has been ordered for the issuance of \$50,000 in bonds to build good roads and everything points to an overwhelming majority.

The good road enthusiasts are looking for a big majority as there is practically no opposition.

When these bonds are carried and sold on the market, a road covering the following territory will be built: Beginning at Wakaty and running to Yarrelton and from Yarrelton to the Belton Crossing. From Yarrelton to the Marak road district line on the Waco crossing road. This will connect with the North Elm and Marak good road district, which have already voted bond issues and will connect with the good roads that lead into Cameron. With this issue carried, which is a certainty this end of Milam county will have every highway a pike road.

ATTENDS BIG AUTOMOBILE MEETING IN DALLAS

Harvey Gandy, the local Nash-Six distributor returned Tuesday night from Dallas all puffed up over a meeting he had attended in that city during the first two days of the week. It was a state meeting of Nash dealers and there was in attendance, some of the "big bugs," as Mr. Gandy puts it, from the factory at Kenosha. He saw one of the new 1920 models and says it is a peach.

\$2,000,000 ROAD BOND ISSUE OF JOHNSON CO. APPROVED

Cleburne, Texas, May 17.—The \$2,000,000 good roads bond issue for Johnson county, having been officially approved today by the Attorney General, County Commissioner Curbey said the next move would be to employ a first class road engineer and proceed to lay out a road system to be immediately constructed by the county.

BUYS NASH SIX

Mrs. J. B. Cavitt has purchased from Harvey Gandy, local Nash-Six dealer, a handsome touring car which will be her own for the use of herself and friends.

- 1601. H. Black, Cameron, Chevrolet.
 - 1602. James L. Britton, Buckholts, Ford.
 - 1603. T. B. Stone, Thorndale, Ford
 - 1604. Sam Mewhinney, Buckholts, Oakland Sensible Six.
- The number of cars registered at Tax Collector Bill Alex Bonds office since the registration was started at County seats has been 1604, as shown by number prefixed to last name in list above.

Ford
THE UNIVERSAL CAR

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; any one can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

U. S. TIRES ARE GOOD TIRES.

I was much pleased with the advertisement of automobile tires I saw the other day. I had been passing many enormous board notices, gaudy in hue, striking in design. "Buy Live-forever Tires! They last like steel." "Use Rockaway Tires. No other rides so smoothly." "You'll come to Ne Plus Ultra Tires! Don't Wait!" "The Best of all Tires! Nothing like it!" So the shrieking advertisements vibrated through the landscape. Then I saw the quiet announcement: "Smith tires are good tires." Just

that. You can't imagine how restful it was. Immediately a sense of solid satisfaction came over me. "Good tires." No need to bluster and howl. No need to ransack the dictionary for superlatives. No need to run down competitors. "Smith tires are good tires." I wanted to buy some at once. Those are the tires for me henceforth. "Good tires." That is the acme of advertising.

Ah, when will people learn the delicious value of quiet, self-respecting simplicity?—From Christian Endeavor World.

OAKLAND ANNOUNCES

There will be no change in present models this summer.

The car will be more refined in detail construction, giving added strength to vital parts.

WAR ACTIVITIES FORD MOTOR CO.

Without going into particulars, the following items will give some idea of the value the Ford Motor Company was to the government of the United States in its call for the sinews of war:

More than 2,000,000 steel helmets.
Order for 5,000 12 cylinder Liberty motors. Over 1,500 had been delivered, and we were just striking our producing capacity.

Ten thousand saissons, mainly for 155 mm. guns. Something over 8,000 delivered.

Order for 112 "Eagle" boats, 200 feet long, 25 feet beam. Something like 25 delivered, when the order was reduced to 62. The balance will be finished by the last of August.

More than 8,000 trucks. More than

25,000 regular Ford cars. More than 6,000 ambulances.

Four hundred thousand cylinders for Liberty motors. Because of the superiority of the work on this article, the government placed the order with the Ford Motor Company to make all the cylinders for all the Liberty motors made in America. The original order was practically completed when the armistice was signed and a new order for 300,000 had just been entered.

Seven hundred thousand bearings for the Liberty motor. Here again the government recognized the superior quality of the bearings made by this company, and placed the order with us for all the bearings for all the Liberty motors made in the United States. On this order over 400,000 bearings had been delivered.

Seven hundred cylnder forgings for Liberty motors. Once again the government recognized the superiority of Ford wark, and placed orders with the company for all the cylinder forgings for all the Liberty motors

made in America. Over 400,000 had been delivered.

A large volume of experimental work was done in building three ton military tanks and the government had just placed orders for 15,000 of the small two man military tanks, and 3,000 of the six ton, military tanks. Cancellation came before more than a dozen or so tanks had been delivered but the foundations had been laid and the superstructure almost completed for an enormous building in which we intended making tanks alone. Of course, this building comes in mikhly useful in the enlargement of our business.

Motion picture reels in behalf of Liberty Loans, Red Cross and patriotic fund work were made by the company and supplied to the government in sufficient quantities to serve the entire United States in motion pictures. Motion picture reels in volumes sufficient to serve the armies of the United States in France, Italy and Palestine were furnished by the motion picture department of the Ford Motor oCmpany.

We also did more than \$1,000,000 or work in the production of special devices for the naval department of the British government.

We also furnished the government with 275 skilled mechanics for work in France.

We also, through our chemical laboratory, co-operated with the manufacturers of gas masks for the United States Army.

An average of 34,000 men and women were employed by the main factory at Highland Park; 6,800 men at the ship building plant on the River Rouge; 4,000 men employed at the new blast furnace in course of construction on the Rouge; 250 men employed at the carburetor plant, or an average of 45,000 employees, practically all on 100 per cent government work, under a standard eight hour day and a minimum wage of \$5.00 a day.

\$150,000 OF ROAD BONDS VOTE IN GRAYSON COUNTY

Sherman, Texas, May 17.—The Howe district last Saturday voted \$150,000 on bonds for good roads purposes. The vote was 169 for and 44 against the proposition.

WILL TAKE BIDS TO BUILD ROADS

Rockdale Road Leading To Tracy-
Cameron Road Is First Step In
That District.

Information has been given out this week that bids will be advertised for to build the Rockdale Pike Road leading from that city to the Tracy-Cameron road leading out from the county capital to the Cameron Oil field at Tracy.

This is the first big step taken since the sale of the Rockdale road bonds some few weeks since and is the first long stride this little city has made towards actual road construction but will mean much to them. It is planned by the commissioners' court to get as many bids as possible from reputable road builders and get the most for the money. An ad will be carried in a county paper and also in the Sunday Dallas News.

Bids for the construction of the concrete work will also be advertised for at the same time as nothing but the very best of concrete bridges and concrete culverts will be constructed.

Under the supervision of Milam's newly acquired highway engineer, Mr. A. F. Mitchell and Mr. S. S. Strahan, the people can rest assured that nothing but the best of work will be the outcome.

The building of this first strip of pike road in the Rockdale district will doubtless be an important event for this city, there are varipus reasons for it being, among them that it connects Rockdale with the Rockdale-Tracy oil field, which joins the Cameron Oil Field.

OVERLAND MODEL 90 IN NEW FEAT

Word has just reached Los Angeles of the feat of an Overland Model 90, which established a world's record for a non-stop run with the gears sealed in high a few days ago in Oklahoma. According to the information received by Walter Roach, manager of Overland Sales Company, the car was driven on the roads around Oklahoma for seven days and in the 168 hours of continuous running the car covered 4,370.1 miles, which exceeds by about 100 miles the record established a month previous by a Maxwell car in Los Angeles. The Overland averaged 624.3 miles a day and got 20.66 miles out of each gallon of fifty-nine test gasoline.

The run was held by Dick Carhart of the Carhart Motor Company of Oklahoma City, Overland and Willys-Knight dealers. The car was run on dirt roads more than half the time and the rest of the run was on rough country boulder stretches and the poor pavements of the suburbs of that Oklahoma city. The carburetor was never adjusted; or a spark plug replaced. There were but three punctures.

During the seven days of continuous driving, the Overland 90 encountered two days of hard driving rain and for twelve to fifteen hours of each twenty-four were spent in the traffic of the city.

Four drivers were used, working in four shifts.

The run was planned by Carhart in an effort to break existing records for a sealed-in-high-gear, non-stop test. The judges for the event were carefully selected. They were the president of the chamber of commerce the managing editor of the Daily Oklahoman and the managing editor of the Oklahoma Daily News.

These men checked the reports of the observers and closely followed the car themselves. The run excited the greatest attention throughout the state as a demonstration of the economy and efficiency of operation possible in the modern Thrift Model of the Overland Motor Company.

The trip started when the automobile, officially sealed and inspected, rolled forward from the desk of the Lee Huckins hotel, through the door and down the steps into the street. The car finished its remarkable economy run by pulling up in front of the hotel desk. The motor was stopped for the first time in seven days.

CHAMBERS-HEFLEY DELIVERIES
The Chambers Hefley Motor Company have delivered the following cars during the past week:

Mrs. Alice Brashear, Cameron.
W. A. Smith, Milano.
W. O. Newton, Milano.
W. M. Phipps, Cameron.

H. H. Stedman, Cameron.
Chas. McDermott, Cameron.
Giles McDermott, Cameron, Tractor

CHEVROLET

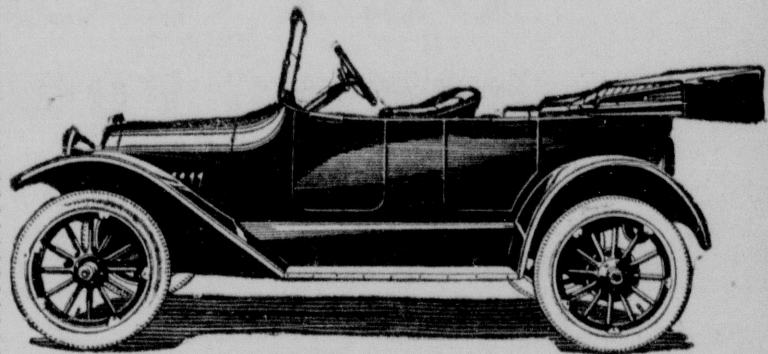

The steel used in the manufacture of all the important parts of Chevolet cars represents the highest development in the art of steel making. To this master product of steel the Chevrolet owes its wonderful stamina and enduring life. For instance, the axles on a Chevrolet car could be twisted and distorted entirely out of their original shape without breaking. All other such important units could be subjected to just as severe strains, which are seldom if ever encountered in actual motoring without damage.

This is one of the many reasons that Chevrolet cars give such satisfying service year after year with remarkably low cost of upkeep.

CHEVROLET PARTS CARRIED IN STOCK

Daugherty Motor Co.

CAMERON, TEXAS

DODGE SERVICE-- HOW ATTAINED

"Changes that are made from time to time in the Dodge Bros., car, originate in the engineering department and not in the sales department. They are made, not with the idea of making the cars sell easier, but for the single reason that the cars will be made longer lived and give still better satisfaction because of them," declares Ralph Chambers, the local Dodge distributor.

"In the building of more than three hundred thousand cars of a single model, the Dodge engineers have never relaxed their search for changes that might improve the car. So careful was the preliminary work before the first Dodge was built, that no radical changes have yet been found necessary. Nevertheless, minor improvements are constantly being

made.
"Nine out of ten of these changes are of such a character that the average buyer would never know they had been made. Even our Dodge salesmen did not notice certain recent improvements in the latest Dodge cars. They consisted of the enlarging and strengthening of parts of the steering apparatus. No trouble had ever arisen there, but the engineering department decided that the car would be stronger and more enduring if the changes were made. A more lasting owner satisfaction is the only result that can be expected from these changes, for they were not made with the idea of lessening sales resistance, but with the sole idea of bettering the car."

THE ONE THING YOU HAVE TO DO

Perhaps you have bought a new car with a Willard Storage Battery on it.

Perhaps you have bought a Willard Battery to replace the battery on an old car.

No matter which—you're entitled to Willard 90-Day Battery Insurance.

But to get this protection your battery must be registered.

Of course we register a battery when we sell it, but if it is on a new car, be sure to drive in right away and have us put the registry number on it. At the same time we'll gladly tell you the few simple rules that you must follow to give your battery the right start in life. Ask us for a copy of the booklet, "Willard Service and You."

How Much is 1¢

Suppose that for one cent you could insure the quality of your cake, biscuits, etc., wouldn't that be real economy?

Well, one cent is about the difference in the cost of a whole cake or a pan of biscuits made with Dr. Price's Cream Baking Powder as compared with cheaper baking powders made from alum or phosphate — a trifle, indeed, to insure the quality and wholesomeness of your baking.

DR. PRICE'S CREAM BAKING POWDER

Made from Cream of Tartar derived from Grapes

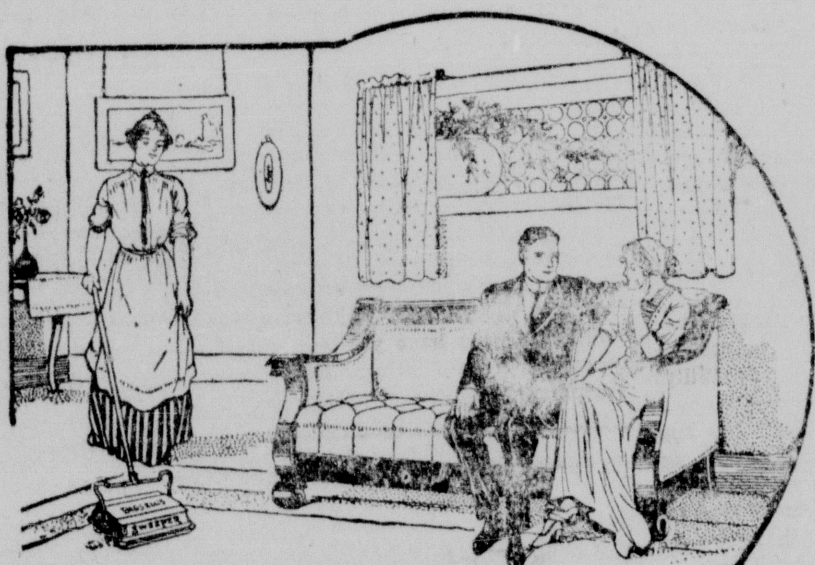

Contains No Alum—Leaves No Bitter Taste

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous things in the medicine line.—Adv.

Mechanism in a German lighthouse that uses electric lights automatically switches on a new lamp and moves it into focus should the original lamp be extinguished.

Rub-My-Tism is a great pain killer. It relieves pain and soreness caused by rheumatism, neuralgia, sprains, etc. Adv.

PRODUCE MERCHANT GAINS 30 POUNDS

Is Also Relieved Of Rheumatism Through Taking Course Of Tanlac.

"I not only gained thirty pounds on a few bottles of Tanlac but can do more work than I have been able to do at any time in the last ten years," said C. B. Gwin, a well known produce merchant of Amory, Ill.

"For a long time my system was debilitated," he continued, and my digestion out of order so I could hardly eat a thing. I suffered from awful headaches, my nerves were on a strain and my muscles felt like they were tied into knots with rheumatism; I lost weight and got weaker every day.

"I was induced to try Tanlac by a friend and it is making a new man of me. I now eat and sleep better than I have in years, my rheumatism is all gone and I feel stronger and better than I have in a long time.

Tanlac is sold in Cameron by all the leading druggists.

Army Worm Control Measures.

The indications are that the army worm is likely to do serious damage in certain parts of the state unless proper control measures are adopted immediately.

The numerous inquiries being received by the Extension Service, A. & M. College have caused Mr. W. P. Lanham, State Leader of Specialists, to give out the following information regarding this insect and the control methods recommended by the Entomologist.

In occasional seasons, dull, striped worms, related to the common cut worm, become unusually abundant and march from field to field, devouring corn, wheat, oats and other related plants.

Individual specimens of this insect are in the fields every year, but only occasionally do they appear in sufficient numbers to become a menace. When they become sufficiently abundant to travel openly as an army, from one field to another, the invasion may be stopped by plowing three of four furrows and maintaining as thick a dust as possible. As the worms collect in the furrows they may be killed with a drag or sprinkled with pure kerosene.

Another method to prevent them from entering the field is to plow or dig a rather deep ditch with a steep vertical side next to the field that is to be protected. In this ditch every few feet apart are dug deep holes with a post hole auger. The worms will fall into these holes and perish, and owing to the steep side next to the field, few will be able to get up and enter the field.

After they have once gotten into the field the best remedy is a poisoned bran mash, made as follows:

Thoroughly mix 50 pounds of bran, 2 pounds of Paris green and 3 finely chopped lemons. Stir to a deep mash with 4 to 7 gallons of water sweetened with ½ gallon of low-grade molasses. Sow sparingly around bases of plants and broadcast over the field where infestation is general.

It will not be possible for our entomologist to visit every county should this invasion become widespread. So I urge all County Agents to keep a sharp lookout and if the Army Worm appears, at once mail in specimens to Mr. Lanham for identification and see that the above mentioned control methods are vigorously carried out.

Far East Bronchitis.

A new bronchial disease, brought by the war from the Far East and observed in thirty men in the Marine Hospital at Toulon, has been reported to the Paris Academy of Medicine. It was at first diagnosed as tuberculosis, which it resembles, but none of the patients showed the bacillus of this disease, while all were infected with another parasite—*Spirochaeta bronchialis*. A curious symptom of the new malady is a rose-colored spittle. The disease is apparently very contagious, though slow in development and not generally dangerous, but seems likely to induce dangerous complications, like tuberculosis or pneumonia.

The Chinese Government is preparing to begin an aerial passenger and mail service, using Japanese airplanes.

Tan-No-More THE SKIN BEAUTIFIER

The most scientific and most wonderful facial preparation of the modern age. It imparts to the skin a velvety softness and delicacy which is delightful in appearance and pleasing in effect. Write for a sample and a free trial.

THE TANNING COMPANY
DALLAS, TEXAS

Italian Bersagliere Band

War Veterans of the Italian Army will give Program of Vocal and Instrumental numbers at the Chautauqua.

Hear the Fanfare

and

Bersagliere Trumpeters

which were so popular with the Italian sharpshooters and their music-loving countrymen.

The members of this organization are the picked musicians of Italy. Everyone is proficient, both in ensemble and solo numbers.

Their appearance in the dress uniforms of the Italian Army will be one of the novel and interesting features of the Chautauqua.

They will render the full program both afternoon and evening.

The Man Who Saves.

What does he gain by thrift? He builds a bridge to a better job; he sets up a ladder to climb in the world; he gives his family a better chance; he develops self reliance; he is ready for sickness or hard luck, if it comes.

What does thrift mean in his work? He has too much respect for time to waste it; he has too much respect for his tools to injure or waste them; he is capable of handling other men's business; he is marked for a better job.

What does Thrift mean to the government?

His savings help to pay the cost of victory; his investment in War Savings Stamps makes him a part of his government; his savings help to protect every American home; his savings help add to the material resources which make America invincible.

What does his Thrift mean to the community?

He helps industry by the avoidance of waste in time, energy, materials and money; he is a steady force among his fellows; he acquires good judgment and helps promote the general welfare; he gets into the class of those who do things.

The U. S. airplanes attempting to cross the Atlantic carry a message of good will from Harold Braddock, Director of American War Savings,

to Sir Robert Kindersley, Chairman of the British War Savings Committee, London, England.

Have you brought your Thrift Stamps today?

The Rainbow Division had gone over the top at San Mihiel. The objective had been taken and the advance elements were beginning to run into the fire of the withdrawn German guns.

Suddenly there was the whine of a shell and a detachment of scouts threw themselves flat upon their stomachs. The shell struck beside one of the doughboys but it did not explode. It was a "dud."

The soldier detached himself from the group and, stooping over, he patted the base of the half buried projectile.

"Nice, pretty shell, cute little shell. But, look here, dud, don't you fool me," he cooed.

How Can This Be?

It is a little late in the year for this story, but a teacher told it to us and we thought it was good enough to pass along.

She had asked the pupils to write a story about Lincoln, and this is the way one youngster began: "Abraham Lincoln was born Feb. 12, 1809, in a log cabin he built himself."—Columbus (Ohio) Dispatch.

Calomel Today! Sick Tomorrow! I Guarantee Dodson's Liver Tone

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes in contact with sour bile it crashes, causing cramping and nausea. If you feel bloated, headachy, constipated and feel locked out, just go to your drug store and get a bottle of Dodson's Liver Tone for a few cents. It's a harmless vegetable substance for cleansing calomel. Take your liver, and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe. They like it.

**NEW ADDITION TO
CAMERON HERALD FORCE**

The management of the Herald is glad to announce this week the addition to Mr. Russell Bonser to our force. Mr. Bonser comes to Cameron from his home in Comanche where he has spent a number of years in the printing business doing a general line of work. He will be connected with the job end of The Herald and his expert knowledge of the job art makes a valuable addition to our present efficient head man, R. E. Higgins, in this department, who is an artist in his work which he follows from choice and not by accident.

Mr. Bonser was accompanied to Cameron by his wife and they have come to make this city their home. For the present they have rooms at Mrs. Harvey Gandy's and are boarding at the Rookery.

The Herald joins in extending a hearty welcome to these new people and bespeak a long and pleasant stay.

L. L. BLAYLOCK,
Sheriff, Milam County, Texas.
By Ben Nabours, Deputy.

Adding New Equipment.

Manager W. F. Henrichsen of the Texas Bottling and Ice Cream works announces that he will soon have in operation the biggest and best ice cream manufacturing machine in this part of the state and will be prepared to take care of orders in any size sent to him. He has also added a machine for making brick ice cream and can deliver on short notice the very best in this line made in any flavor. Henrichsen believes in keeping his plant up to date and never falls down on an order and we dare say he is enjoying one of the biggest ice cream and bottling business in middle Texas.

Dr. H. W. Cummings of Hearne will be the principal speaker at a Centenary rally at the Methodist church Sunday night. Rev. B. T. Bell of Rosebud will also be one of the speakers of the occasion. Prof. L. H. Kidd, superintendent of the drive in Cameron will have charge of the service.

**CENTENARY RALLY
AT METHODIST CHURCH**

Dr. H. W. Cummings of Hearne will be the principal speaker at a Centenary rally at the Methodist church Sunday night. Rev. B. T. Bell of Rosebud will also be one of the speakers of the occasion. Prof. L. H. Kidd, superintendent of the drive in Cameron will have charge of the service.

The Triggs Dry Goods Company's Store News

The topnotch of variety and completeness has been achieved. Our stocks at this moment are at their fullest and best.

But to supply your needs; to make profit on every piece of goods we sell you is not our excuse for being. We realize our responsibility and the fact that our success can only depend on the character of SERVICE we render you. We want to merit your confidence in large matters as well as we do those of minor note.

One of the great lessons the great war taught us was--how to help the other fellow and how to profit by his help. Co-operation and service go hand in hand and if the Autocrats of Europe had but remembered their duty to the people, the greatest of wars would not have shaken the foundation of the world. You permit your needs to be taken care of by business organizations and as a part of those organizations we shall always endeavor to keep it in mind that:-

Service in the correct sense of the word is the only possible business policy.

**The Ways of Fabrics
Are Varied.**

And printed Georgettes merits a good share of our applause by appearing in patterns as fascinating as they are unusual. One visit to this display and you will want a fresh new frock if for no other reason than to see how charmingly these combinations of Georgette may be developed. It is 36 inches wide and is temptingly offered at \$2.75 a yard.

**See Window Display of
Henderson Corsets**

As Fine as Cobweb Is the lovely lace which we are featuring at very low prices. It takes but a moment to evolve from the daintiest neckwear fancies imaginable.

**SUITS FOR
SWIMMING**

A stroll down the beach may furnish enough thrills for many, but milady who wears this stunning wool bathing suit is satisfied with nothing less than a good vigorous swim. And she won't catch cold either when she leaves the water for it dries in a moment, and even after a season's active wear this suit will look quite as attractive as the day it lured you to select it.

HOSIERY WEARS

as long as it should when it is re-enforced at heel, toe and garter top. Our hosiery not only fills this requirement but it looks well and fits well which is an important consideration when the perfect ensemble of one's costume must not be marred by hosiery wrinkles or draws. Good quality lisle 50c and 75c. Silk Hosiery \$1.00 and up.

International Grand Champion

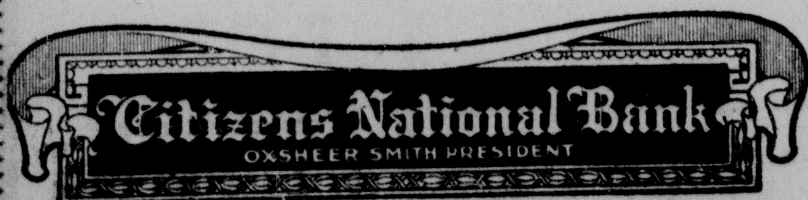

Poland China Boar, 1918. From a Photo

This fellow is the real aristocrat of hogdom and outside of the pride he gives his owner he can be sold any time for enough to buy a good farm almost any place.

Yet he occupied no more room than a runt and has cost no more to raise. His owner started in the business with a \$25.00 pig, only a short time ago.

The world needs hogs; it will continue to pay for them. The better the hogs, the better the pay.

This bank does not put itself in the position of tell farmers how to farm, but we believe in good hogs. The kind that can sometimes be sold for breeding purposes at a high price.

Velvet

THE
FRIENDLY
TOBACCO

Horse Sense About Tobacco

Good tobacco ought to be like a well-bred hoss—all th' kick taken out but all th' sperit left in.

You see, half the secret of makin' a good hoss is in the breedin' an' half in the breakin'. Selectin' tobacco that's grown right is only *half* of makin' Velvet. The agein' is the other half.

Thar's only one kind of agein' that gets th' right results—*Nature's own*. Nature's no clock watcher. She does a job *right* whether it takes two years or two thousand.

So when she gets through with the fine Kentucky Burley that we put away in wooden hogsheads for two years, it's just *right*.

It ain't been hurried none, or short-cutted. It's a Nature-done job.

All kinds of things are packed in tobacco tins, but your good neighbor will tell you "Velvet is the real pipe tobacco." Prove it for yourself.

Seniors Donate Civic Books To School Library.

Realizing that our high school library is in many respects very deficient, Miss Williams the history teacher suggested a plan by which the civics department of next years library was materially aided.

Next year the state will furnish and require the use of an adopted text book for senior civics. But it will not be the same one that this years senior class has used, and is in some respects inferior to it. She therefore asked that all seniors donate their books to the Library if possible to be used as source books in the following years. As a result a large number of books were obtained, with comparatively little cost to the seniors and with a great deal of saving to the school.

Orchestra Plays at Court House.

On Saturday afternoon, upon a very short notice, the orchestra gathered on the Court House lawn to furnish music at the opening of an address on the prohibition amendment.

Recital By Miss Bonnie Brougher's Music Pupils.

Last Friday night a recital was given in the high school auditorium by the music pupils of Miss Bonnie Brougher. The entire program was highly appreciated by a large audience.

During the evening there were several piano selections by pupils of various degrees of advancement. There were also songs by the Girls' Glee Clubs, the Dixie Girls and the Bonnie Girls. The audience was favored with vocal solos and duets by the individual members of these clubs.

There were also vocal solos by Messrs Cecil Barmore and Price Cross.

Baccalaureate Sermon.

The baccalaureate sermon for the seniors will be held at the Methodist church, Sunday morning, May 25, at eleven o'clock. The services will be conducted by Rev. W. R. Hall, formerly minister of the First Presbyterian church of this city.

Weekly Explosions.

Furthermore, we wish to state that some reason should always be used—even on English examinations.

It is our idea that seniorless weeks are as helpful to the school as wheatless and meatless days were to the nation.

Mrs. Solomon asks: "If it takes four hours and a half for the seniors to make failing grades on an English exam, what chance is there for the juniors, who are studying the same work?"

Some one has said that "War is Hell." What about English?

The Cam-Hi Widow is no longer in mourning. She has donned white, and is now a prohibition advocate.

Classification of Students.

Next week the school students will be classified, assigned to the classes and sections to which they will be members in the next school year. On Wednesday morning the students in next years' eighth and ninth grades will be classified, and on Friday the students in the tenth and eleventh grades, and those in the grammar grades will be classified.

Senior Class Day Exercises.

On next Thursday, May 29 at 10 a. m. the senior class will give their class day exercises, which will probably establish a precedent for future senior classes to follow. At the exercise the seniors will bury "English" in accordance with a vote of the class. Everyone is invited to attend.

"Chewing Gum."

(A Freshman Theme.)

There is a girl in the tenth grade, who at all times is chewing gum. When she goes to church on Sunday Mornings, she has a very large piece of chewing gum in her mouth. At school, one can go to her desk and find a very large amount of gum all around her desk. It is not good to chew it all the time, though it is not bad to chew it once in a while.

When you are at her home you can see old chews of gum all over the door facings and under the library table. I suppose that the reason that she never has any boy company is because it would break him up to buy her gum. She has been living in Cameron for about five years. I have never seen her at any time but what she had a chew of gum in her mouth. She may sleep with it in her mouth.

This chewing of gum is a very bad habit. Mr. J. N. Crawford, principal of the Cameron High school, said: "No chewing of gum will be allowed

Thanks to PERUNA

Mrs. Kate Marquis, Middleburg, Logan Co., Ohio, writes as follows:

"I have used Peruna with success. It has cured me of catarrh of the head and throat. It is the best medicine for catarrh that I have ever used. I am completely cured. Thanks to Peruna."

Mrs. Marquis is but one of many thousands who know the value of Peruna for that catarrhal condition of the membranes responsible for many of the human ills.

I
Am
Completely
Cured

If you object to liquid remedies ask for Peruna in tablet form.

in this school." This may keep her from using such a large amount of gum. Her mouth is very enlarged because she chews so much gum.

M. L. S.

The Commencement Exercises.

The graduating exercises for the seniors of the high school will take place in the auditorium on Friday evening, May 30 at 8:30 o'clock.

A Strong Character.

"I met Mr. Kidd on my way to Sunday School, mamma," said one of the grammar grade boys, "and he asked me if I ever played marbles on Sunday."

"What did you answer?" asked the mother.

"I simply said: 'Get the behind me, Sata!' and walked off and left him" was the triumphant response.

How She Took It.

"It says here the biggest fools have the most beautiful sweethearts."

"Oh Cecil, you flatterer."

The Error.

Irene—They asked me to their reception, but it wasn't because they liked me, it was only because I can sing."

Elsie—"Oh, I'm sure you're mistaken dear."

Hobo Definition.

"What is this here ennui?" asked Monday.

"It's when a fellow gets so lazy that he feels that loafin's blamed hard work," replied White Hubert.

His Instrument.

Mr. Crawford: "If you are going in for music, which instrument would you choose?"

Fitz Hooks: "Well I've always though I'd like to be a soloist on a cash register."

Figure It Out Yourself.

"How many of you have prepared and original algebra problem in multiplication, as I requested?" asked Miss Reid. Only one hand went up.

"Well, Jessie," said she to Katy

McCall's younger sister, "you may give your problem and the rest of the class may solve it."

"If I had a baby sister, a year old now, and she weighed twenty pounds and kept on gaining two ounces a day until she was seventeen years old, and if the price of living doubles again in the next ten years, how much would my sister's graduation outfit cost? Mother says she would like to know."

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

A reinforced concrete mast 150 feet high has been built for a radio station in China.

The Strong Withstand the Winter Cold Better Than the Weak

You must have Health, Strength and Endurance to fight Colds, Grip and Influenza.

When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the winter cold.

GROVE'S TASTELESS CHILL TONIC Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood.

It contains the well-known tonic properties of Quinine and Iron in a form acceptable to the most delicate stomach, and is pleasant to take. You can soon feel its Strengthening, Invigorating Effect. 60c.

Cam-Hi Weekly News

Edited by the Students of the Cameron High School.

Editor-in-Chief.....Jack Logan

Senior Editor.....Homer Peel
Junior Editor.....Henry Tracy
Sophomore Editor.....Lee Howell
Freshman Editor.....Mary Joe Harlan

The Cam-Hi Weekly for this week is somewhat reduced, and probably not quite as newsy as it has been. But we wish to say that because of the final examinations for seniors, and the approaching finals for the undergraduates, to say nothing of the

large amount of preparations for commencement exercises and other programs, the editorial staff as well as the whole student body, has been unable to give the usual amount of work to the edition of the paper. However, we expect to have a good lineup next week which will be the last edition of the paper for this school year.

Graduating Exercises For Seventh Grade Pupils.

The commencement exercises of the seventh grade students will be held in the high school auditorium on Monday night, May 26, at 8:30 o'clock. This is only the second time that exercises of this kind have been given, the first time having been several years ago. All the public and especially the high school students

should be present and get acquainted with the future freshmen of Cam-Hi.

Examinations For Undergraduates.

The freshmen, sophomores and juniors should be making preparations for the fourth term final examinations, which will be given on Monday and Tuesday of next week. Schedules for the time of these examinations have been posted in the study hall.

Operetta To Be At School House.

There is quite a treat in store for the public, for on tomorrow night at 8:30 the high school students under the supervision of Misses Ruth Goddard and Bonnie Brougher, will present an operetta at the high school auditorium.

There will be fifty highly cultured voices to carry one into the realms of the ideal, and twenty four musical selections will convince the audience that the word "operetta" means an opera of the highest type. Come prepared for a surprise because the beauty of the elaborate costumes is so great that there is a possibility of the breath being taken from the audience when they are displayed.

All seats are reserved and there will be only one price for seats, fifty cents for all. Children of all ages may come, but those under twelve must get seats next to their parents or guardians. You cannot afford to miss this program, when each of the twenty-four musical selections will cost only two cents, while at the same time, there will be so much else to be seen and heard. The proceeds will pay for the high school piano, which of course is almost an absolute essential part of the school.

Following is the cast of characters for the program:

O Hara San, Miss Blossom—Owen Bacon.
O Kashi Kintara—Cecil Barmore.
Kanaya, father of O Hara San—Leland Denson.
O Toya San, mother of O Hara San—Esther Fielder.
O Toki San, chief of the Maids—

AN EXPLANATION OF
THE AMENDMENTS

House Joint Resolution No. 1.

This is to amend Section 20, Article XVI of our State Constitution and is what is known as the State-wide Prohibition amendment. Its object is to prohibit the manufacture and sale in Texas of all intoxicating liquors, except for sacramental, medicinal, scientific and mechanical purposes. This question has been under discussion before the people for more than ten years and they understand it thoroughly. They have at last put John Barleycorn to the block and the axe is in their hands and it is for them to say whether they will grant him a pardon or finish the job at once. If you favor the destruction of liquor power in our State, vote for the amendment.

Senate Joint Resolution No. 7.

Proposes to amend Section 2, Article VI of the Constitution, relating to suffrage. Section 2 as it now stands, provides among other things that males only shall vote and, "that every male person of foreign birth who at any time before an election shall have declared his intention to become a citizen of the United States and shall have resided in the state one year and in the county six months, shall be deemed a qualified voter."

The proposed amendment has two purposes: (1) To permit women, upon payment of a poll tax, to vote upon equal terms with men. We need not stop to argue the right of women to vote. She has been a patient tax payer ever since our Government was established and in every national crisis she has answered her country's call. Our great President, Woodrow Wilson, our United States Senators, Charles A. Culberson and Morris Sheppard and many of the states of the union have declared for woman suffrage.

(2). It proposes to take away the ballot from aliens and non-citizens who at present are permitted to vote in Texas. Is it not singular that our State should have a constitution which permits a Mexican bandit and a subject of the Kaiser who cannot speak our language and neither understands nor respects our Government, to vote in every election, and yet refuses the ballot to our mothers and wives? This provision was put in the constitution nearly fifty years ago for the purpose of inviting immigration, upon the belief that those who came would become citizens and give their full allegiance to our state. But when a great crisis came, upon the declaration of war, we discovered that there were thousands in our state, who had been choosing our officers and making our laws by their votes and yet were all under bonds of allegiance to the government of our enemy. Is it not unsafe for us to trust the destiny of our State to those who are not willing to trust their citizenship to us? If you favor full American citizenship for all voters, vote for this amendment. If you favor alien voting, vote against it.

Senate Joint Resolution No. 13.

To amend Section 5, Article IV of the Constitution. This relates to the Governor's salary. At present he is paid Four Thousand Dollars and this amendment increases his compensation to Ten Thousand Dollars a year. If you think Four Thousand is enough for our great state to pay its Governor, vote against this amendment. If you believe Ten Thousand is not too much, vote for it.

House Joint Resolution No. 19.

Proposes to amend Section 50, Article III so as to permit the State to lend its credit to heads of families at a low rate of interest for the purpose of buying a home of not exceeding two hundred acres. It is modeled after the Federal Farm Loan Bank, act of congress which is now in successful operation. Oklahoma has had a similar provision for ten years which is very popular. It you think it would be safe for Texas to give this aid to its citizens, vote for the amendment. On the other hand, if you do not believe it would be wise, vote against it.

TIME IS UP

Good bye to the saloon--Keep Texas dry. The tax payers have learned that the open saloon means added crime and poverty when they must foot the bills. The people are saying in state after state, in county after county "TIMES UP. You have failed to show your right to be. You will have to go." Let them go for good next Saturday.

SATURDAY IS THE DAY

"All will observe that those opposed to prohibition are much more active now than during the war. One does not have to go far to find the explanation of this. Germany was so intimately connected with the business in this country that one could not favor it without laying himself liable to a charge of disloyalty. Just keep in mind that the same people are trying to run the liquor business now who had it in hand before the war. They are not friends of this government--never have been and never will be." Vote them out of Texas for good and always.

Lloyd George said "We are fighting Germany, Austria and drink, Drink is the worst of our enemies. It does us more harm than all the submarines put together."

Mr. Farmer:

Quit Plowing long enough to go and VOTE SATURDAY.

Mr. Cotton chopper:

Quit Hoeing long enough to go and VOTE SATURDAY.

Mr. Bookkeeper:

Close your books long enough to go VOTE SATURDAY.

Mr. Merchant:

Quit your business long enough to go and VOTE SATURDAY.

Mr. Harvester:

Who is reaping stop that reaper long enough to go and VOTE SATURDAY.

All You Women:

All the women of Milam County help the men to go to the polls SATURDAY and FOREVER KEEP TEXAS DRY.

Mr. Mechanic:

Quit your work long enough to VOTE SATURDAY.

Mr. Lineman:

Come down off that pole and KEEP TEXAS DRY, SATURDAY 24th, inst.

Miss Telephone Operator:

Let everybody know Saturday is the day to FOREVER KEEP TEXAS DRY.

OFFICIAL BALLOT

FOR Prohibition.

AGAINST Prohibition

FOR the Amendment to Section 2, Article 6, of the Constitution of the State of Texas, providing qualifications for male and female voters.

AGAINST the Amendment to Section 2, Article 6, of the Constitution of the State of Texas, providing qualifications for male and female voters.

FOR the Amendment to Section 5 of Article IV of the Constitution of the State of Texas in regard to the salary of the Governor of the State of Texas.

AGAINST the Amendment to Section 5 of Article IV of the Constitution of the State of Texas in regard to the salary of the Governor of the State of Texas.

FOR the Amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes.

AGAINST the Amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes.

NATIONAL AMENDMENT INEFFECTIVE.

Vast sums of money will be spent in unrighteous propaganda and in the employment of shrewd and conscienceless legal talent to defeat the will of the American people. Let it be borne in mind that while the amendment to the Federal constitution has been regularly ratified Congress has yet to pass laws for its enforcement. If, through neglect or for any reason, Texas fails to pass the State-wide prohibition amendment in May it will be interpreted as a rejection of the principle of prohibition for the Nation. If those States whose legislatures ratified the amendment should by popular vote reject prohibition their representatives in Congress would have poor encouragement to pass adequate enforcement measures. It on the other hand this State rolls up a great majority for the amendment to the State Constitution it will put our representatives in the National Legislature on notice that we expect the enactment of such laws as will make possible the complete destruction of this evil which has cursed this Nation through all the generations of its history.

WHO CANNOT VOTE
ON THE AMENDMENTS

Mr. J. W. Garner,
Rockdale, Texas.

Dear Sir:

Replying to your inquiry, beg to advise that people of German and Austrian birth are not entitled to vote in the election May 24th, unless they have completed their naturalization. In other words, they cannot vote on declaration to become citizens.

People born in other countries than Germany and Austria may vote on declaration to become citizens only when their declarations were filed less than seven years prior to May 24th.

Yours very truly,

ROY BASKIN,

County Attorney, Milam County.

Don't Put it Off = Let's Put it Over

By Your Vote May 24th 1919, Put Prohibition into the Constitution or have Continual election agitation. "LET'S FINISH THE JOB."

CAMERON, MILAM COUNTY, TEXAS, THURSDAY, MAY 22, 1919

NUMBER 3

SOLDIER'S REASON FOR WANTING VOTE

Chas. M. Dickson Who Filed Suit In
Bexar County Gives Full Ex-
planation.

To Dallas News.
San Antonio, Texas, May 9.—At the risk of being accused of seeking the limelight, I wish to make, publicly the following statement:

Because of the fact that I recently filed suit in one of the District Courts of Bexar County to establish my rights under the Constitution, as a discharged soldier, to vote in all elections held during 1919 without having paid a poll tax for 1918, an erroneous impression has gone out that my suit was an anti-prohibition and anti-woman suffrage movement.

I have even been approached by persons living in other parts of the State, asking me to continue my efforts to defeat statewide prohibition and woman suffrage.

I dislike to be classed as either a "pro" or an "anti," for there are a bunch of prominent crooks, lunatics and demagogues to be found under each classification. However, I am more of a "pro" than I am an "anti," and desire that every discharged soldier (pros and antis alike) have the right to vote in the coming elections. I don't know how the soldiers will vote, but my vote will be against the saloon and it will favor woman suffrage.

As for woman suffrage, I hardly think the soldiers will be especially anxious to deny the ballot to the Salvation Army lassies, who followed them into "No Man's Land," or to the Red Cross nurses, who administered to their suffering and dying comrades upon the field of battle, or, even to the good woman who remained at home and did a man's work in factory, shop and office.

Chas. M. Dickson,
Captain, Air Service.

RAINBOW DIVISION HERO BACK FROM FRANCE

Haskell Kidd, son of Prof. and Mrs. L. H. Kidd, is in Cameron, having just returned to the United States from France.

Mr. Kidd was with the Rainbow Division and saw 18 months service with the A. E. F. About two weeks ago he landed with his division at New Port News. He was in the big parade given by the Rainbows in Houston and then went to Camp Travis where he received his discharge last Friday.

Friday night he attended a banquet given in Austin to his company. He had enlisted in the service at Austin. From Austin he came to Cameron Saturday and is at home with his parents.

Ships Fine Duroc Jersey.

E. A. Barmore, the premier hog man of Milam county was in from his ranch at Maysfield Monday for the purpose of filling an order for a five months old Duroc Jersey gilt. The little pig was going to Ruby Wilkins at Detroit, Texas, and was a peach. One little pig, we will say one little real pig, raised with less trouble than a three dollar razor back up to five months of age and bringing \$35.00 is not bad.

Centenary Drive A Success

The Centenary drive began in the Southern Methodist church Sunday morning and it has been pronounced a decided success.

Prof. L. H. Kidd is the superintendent of this drive in Cameron and his forces have been actively engaged in their work this week. They have reported that the Cameron church is over the top. Mr. Harbin is in receipt of a letter from R. M. Kelly of Longview expressing his appreciation of the work done by the Cameron church. The Marlin District of which Cameron is a part is the only district that went 100 per cent for the Sunday School feature of the Centenary. In recognition of this, Mr. Harbin received a telegram of congratulations from the Missionary Secretary of the Southern Methodist Church at Nashville.

AMENDMENT ELEC- TION SATURDAY

Four Of Most Important Matters
Ever Before People Will Be
Decided Upon.

Four of the most important constitutional amendments ever voted on by the people of Texas are to be presented to them next Saturday, May 24th. These are the amendments providing for State-wide prohibition, equal suffrage, an increase in the salary of the governor of the state and the home owning amendment. This means that next Saturday every qualified voter of Milam county will be called upon to cast a ballot for or against these issues that have been thought out by the brainiest and best men of our state.

The amendment that is attracting the greatest attention is one dealing with making Texas dry—the State wide prohibition law. The last time this was voted on by the people of Texas was in 1911 when the anti-carried by 4,000 majority. Since then the ranks of the prohibitionists have grown tremendously. Many of the anti supporters have come over to the pro side. And today we feel confident that May 24th will see John Barleycorn's death and burial. We must remember that the old fellow is not dead yet and that he is certainly not sleeping but is hard at work and watching every chance to land a victory over the death pros have planned for him.

Another amendment of great importance is the one regarding woman suffrage. Some one has said that woman suffrage and prohibition were a pair of prancing white horses hitched to the same wagon. The suffrage amendment simply changes the constitution so that it gives women the full right of citizenship of the United States. If we stop to think we see that woman is just as qualified to vote as man, first because two out of every ten tax payers in the state are women, second because women are the equal of men in intelligence and third on account of the wonderful way woman has responded to her country's call. And last years primaries should convince those who are not convinced by the above. For the women certainly showed in these that they were after clean politics and that they were willing to go to some trouble to find the best men for the offices, and that they were willing to vote when given the opportunity.

If the home owning amendment is adopted it will give the legislature power to give or lend, or authorize the giving or lending of the credit of the state for the purpose of assisting citizens who are heads of families to acquire or improve their homes upon terms and conditions prescribed by the Legislature and also allowing the creation of agencies to carry on this work and providing for the exemption of such homes from taxation. The advocates of this amendment think it would be a wonderful thing for the state as it would put within reach of every head of a family in the state a farm home and would result in the settlement of the vast areas of untitled and fertile lands within our borders.

The fourth amendment provides for an increase in the governor's salary from \$4,000 to \$10,000 a year. Everybody readily see the necessity for the raise in the salary. Such a salary as this makes it impossible for men of limited means to accept the position. Our governor is the poorest paid governor of any of the governors in the Union. He gets less money than many of the officials in our cities, and also less than a great many state and county officers. Let the people of the great state of Texas give its highest official a decent living at least.

All of the issues involved in these amendments are important and vital to our states' progress and our people's happiness. Let's make May 24 a red letter day in our States' history by casting a ballot that will make the world sit up and say that Texas has waked up and is now the brightest star in the flag.

CAMERON HIGH SCHOOL CLOSES SUCCESSFUL TERM

Another Large Class of Splendid Young Men
And Young Women Will Go Out Bet-
ter Prepared to Fight Life's Battles--
Twenty-Nine in Senior Class.

May thirtieth marks another year in the work of the Cameron Public Schools. During the years of its existence many hundreds of students have gone out from its doors to take their places in the world's work and in this great field they are bringing much credit to their Alma Mater. Each year at this time a class of young men and women pass out of this institution with a diploma under their arms, thus showing that they have completed the work required by the school and are now going out to enter the larger plane of life.

This year's graduating class is composed of twenty-nine members—sixteen girls and thirteen boys. These seniors of 1919 are an unusually strong class and are a credit to our school and to our town. They have introduced much that is new and good into the life of the school. Enthusiasm, or in the parlance of the day, pep, has been one of their chief characteristics. Everything they have entered into has gone off with a snap because of this thing called "pep." This quality, if we may name it such, did not come to light in their senior year alone, but they have had it all through their school days, from the first grade through the eleventh. Some classes, as you know, just naturally attract the attention and interest of the entire citizenship, and this is one of those classes.

Among this year's graduates we find a number of talented musicians—both instrumental and vocal. Several members of the Cam-Hi Orchestra were drawn from this class. Then the glee club known as the Dixie Girls is composed mostly of senior girls. In athletics the class also contributed its quota of players. It furnished several of the stars on the gridiron, the diamond and the basket ball field and as boosters and yell producers they could not be excelled. Talent was also found among its members for amateur theatrical productions which were given from time to time during the year. The senior class also responded to the different war time campaigns and calls.

Besides all these outside activities which tend to keep both Jack and Jill from being a dull boy and girl, these young people have made good records in their studies. They have helped to establish in the school student control and the honor system. They have fostered literary societies. Through the use of the school library and the outside reference books they have gotten an excellent taste for and knowledge of good literature.

The teachers of the young people have done everything in their power to make this class of all round boys and girls. They have tried to instill into them during the years of their training not only the rudiments of education, but also high ideals and aspirations. Much credit is due Mr. Watts, our former superintendent, Mr. Kidd, our present superintendent and every teacher that has touched the lives of these seniors, for turning out such a splendid lot of young American citizens-to-be.

The commencement exercises this year will begin Friday night, May the twenty-third when Misses Brougher and Goddard will stage the charming little operetta, "Miss Cherry Blossom." This is to be quite a spectacular affair in scenic effect, costuming and musical interpretations. The cast is composed of fifty young musicians of the Cameron High School. The proceeds of this play are to be used in paying for the musical instruments recently purchased for the school.

Sunday, May twenty-fifth, the commencement sermon will be preached at the Methodist church by Rev. W. R. Hall of Milford. Mr. Hall having held the Presbyterian pastor-

ate in our city a year or so ago, and at that time having endeared himself in the heart of all, needs no introduction to the Cameron people. Besides the sermon the following musical program will be carried out by the singers of the city:

Processional—Coronation March from "The Prophet"—Meyerbeer.
Awakening Chorus—Gabriel—By Choir.

Invocation—Rev. B. B. Blaylock.
Hymn—Holy, Holy, Holy.
Scripture Reading—Rev. W. G. Harbin.

Pilgrim's Chorus from "Tannhauser"—Wagner—Choir.

Commencement Sermon—Rev. W. R. Hall.
Hymn—Faith of Our Fathers—No. 415.

Benediction—Rev. W. R. Hall.
Director—Miss Bonnie Brougher.
Pianist—Miss Ruth Goddard.

Monday night at 8:30 the grammar school graduation will take place at the high school auditorium. On this occasion the pupils of the seventh grade will receive diplomas of graduation from the grammar school department. Next year they will enter high school and a stronger, finer class than these have never entered high school before. The program for the affair will be very interesting.

The seniors will have class day exercises Thursday morning at ten o'clock on the high school campus. Quite a nice program has been arranged for this. At this time an Alumni Association for the Cameron Public Schools will be formed. This is one of the new things this class is introducing into their commencement program, and it is such a nice idea that it will receive a hearty response by the former graduates of this institution. Invitations have been sent out to members of all the other graduating classes of the Cameron High School. The members of the organization will end their meeting with luncheon on the grounds.

Friday night at 8:30 the big event that all these other events have been working up to will take place. This, of course, will be the graduating exercises of the Senior class. A splendid program has been arranged after which the young people will be given their diplomas and awarded the scholarships.

The following is the roster of the class:

Berry Vernon Roberts
William Clytus Ford
Nadine Alwyn Bragg
Esther Mae Fielder
Louis James Logan
Lulu May Kennon
Harriet Ada Henderson
Lillian Owen Bacon
Albert Collins
Walter B. Adams
Annie Lee Peoples
Irene Cheeves
Florence Irene Williams
Homer Hefner Peel
Katherine Adeline McCall
Ruth Burke
Elsie Clara Horstmann
Viola Marek
Ludmilla Rosalie Matula
Alfred Knox Tyson
Raymond C. Thompson
Elliott W. Atkinson
Louis James Epperson
Mary Louise Green
Emily Louise Batla
Naomi D. Pardo
William Homan Barge
James L. Coleman
William Cecil Barmore

The last week of school work will begin next Monday. All day Monday and Tuesday morning will be devoted to final examinations in all the grades. Wednesday morning the classification and assignment for the next year's work in the eighth and ninth grades will be made. The work

A POTATO CURING PLANT IS ASSURED

Local Stock Company To Organize
And Erect 20,000 Bushel Plant
At Once.

The long talked-of sweet potato curing plant for the city of Cameron has at last become a reality. The establishment of a plant of this character was brought up some eight weeks ago at a meeting of the Cameron Commercial Club and has since that time been discussed upon several occasions. The club went so far one time as to delegate two members and agree to pay their expenses to see one of the Wells system plants in operation, however, this trip was never made. The project died down until last week when Mr. J. A. Bohart, a representative of the Southland Sweet Potato Curing Plant and Storage Association of Dallas came to Cameron with a determination of erecting a plant. The matter was taken up with a few of the local business men and he appeared before the Commercial Club again with the matter, however, it was not urged as a matter for the club to take up but merely for it to endorse, which was done.

After a couple of days work in the city the announcement has been made that a stock company has been organized with a capital stock of \$15,000 for the purpose of erecting a 20,000 bushel curing plant of the Wells system. The incorporators are B. P. Atkinson, Oxsheer Smith, Robt. McLane and Chas. Terry.

The location of the plant will probably be on the corner lot across from the jail adjacent to the Santa Fe rail road yards.

The Herald has taken the matter of a story covering the details of the plant and it's operations up with the manufacturers and hopes to be able to publish next week the complete details of the system from beginning to end.

REV. B. B. BLAYLOCK RETURNS FROM BAPTIST CONVENTION

Rev. B. B. Blaylock returned Tuesday from Atlanta, Ga., where he attended the Southern Baptist Convention.

Mr. Blaylock reports that this was the greatest Southern Baptist Convention he ever attended. That the spirit of the meeting was marvelous and that the keynote sounded during all the sessions was the wonderful opportunity that the times offered and how the Baptist people must do their share in meeting these. A \$75,000,000 budget for the next five years was planned.

Murdock Hotel Running.

Mrs. Laura Scott has recently moved to Cameron from Merkel, Texas, and has opened up the Murdock Hotel across the street from the Jeter Lumber Company. Her daughter, Miss Lois Balch, has accepted a position with Wm. R. Rogers as stenographer.

of the tenth and eleventh grades of next year will be planned on Friday morning. The pupils of the grades will also be assigned their work for next year on Friday. The children will not report except as outlined above after Tuesday noon.

This has been a splendid year in the Cameron Public Schools. Many new things have been brought in and the general tone of the school has been helped. Mr. Kidd, our new superintendent, in his first year has helped in many ways to enlarge and strengthen our already good school system. He has added to the curriculum and also applied to the State University for more affiliations. Under his guidance the library for the high school has been built up and a splendid collection of supplemental readers and reference books have been secured for the grades. Athletics have also been given a boost. Our baseball team has an undefeated record to its credit. Mr. Crawford is largely responsible for the success of the athletics and also for the splendid Cam-Hi Orchestra for he was the director of both of these.

COMMERCIAL CLUB TO HAVE A HOME

Plans Outlined To Procure Building
For Purpose Of Holding
Meetings.

At the regular meeting of the directors of the Cameron Commercial Club held Friday Night, May 16th, 1919, a roll call showed the following officers and directors present: Robt. McLane, President; Geo. T. Graves, Treasurer; T. N. Herring Secretary. Directors: J. W. Coleman, J. T. Parma, R. H. McIntosh, J. D. Dobbins, John E. Mangum. Committee Chairmen: T. F. Hardy, Monta Thomas, T. B. Wooten, W. M. Cobb, B. P. Atkinson, Frank Lesovsky, O. M. Smith.

Minutes of previous meetings were read and adopted.

Under the head of report from officers the secretary reported that the better mail service project was to be reported on by the postmaster at an early date and that as soon as the matter was heard from a further report would be given.

J. W. Coleman, chairman of the Wilson-Ledbetter Park committee reported that a number of designs for an entrance gate were in possession of the committee and would be submitted to Aunt Lizzie Wilson for approval, after this the committee would go before the council with same and then make a further report.

W. O. Triggs, chairman of a special committee to make plans for the establishing of a 40 piece brass band in Cameron reported that a committee meeting had been had and outlined that funds to the amount of \$400 was needed to carry the project through the summer and suggested that the committee be instructed to raise this amount in a lump sum that the matter might be settled in detail.

During the discussion of the band project Prof. J. N. Crawford reported to the Club that the upstairs of the old Law-Sprinkel building, belonging to Mrs. McHenry would be available for \$20.00 or \$25.00 per month and would be a desirable location for a practice room. This suggestion brought up the question of the Club renting this building for a term of years and using same in connection with the band room as a home for the Cameron Commercial Club. During the discussion of the matter it was brought out that the club's treasury had plenty of funds on hand to equip a place of this kind in a very satisfactory manner and the project was favored by those present. The matter was disposed of by a motion to appoint a committee to look into the matter of renting the building, also of the cost to furnish same satisfactorily.

The committee appointed was O. M. Smith, chairman, J. W. Coleman, William O. Triggs and the Secretary.

The name of S. E. Brogren was proposed for membership in the club by T. B. Wooten and upon motion he was duly elected.

J. T. Parma brought up the matter of a promise the club had made to the Santa Fe several months ago with reference to the building of a side walk leading from the rear of the station to the walk at Morrick's corner. The matter was discussed and the Civic Improvement Committee instructed to look into the matter.

Mr. Bohart, representing the Southland Sweet Potato Curing Plant was present and made a short talk on the matter of establishing a plant in Cameron. He related that he did not expect anything from the Club other than it's indorsement, and this, he said, I am sure I have.

Mr. J. S. Doane of Bryan, proprietor of the Auditorium Hotel was a visitor at the directors meeting and made a splendid talk for the good of the order.

Manager A. Robinson of the United States Railway Express Company requests the announcement that the new office hours are from 8:30 a. m. to 5:30 p. m. with an hour closed from 12 to 1 for lunch. This is an order received from headquarters that the employees might comply with the new eight hour schedule for government employees.

Successors to

TYSON-FREEMAN-HOLTZCLAW CO.

A converted German liner bearing a negro stevedore battalion ran into a storm soon after leaving port and in spite of the anticipation of landing again on American soil the troops on board were anything but in a joyful humor. There were no meals prepared, for no one desired to eat. The whole unit was "in quarters" and the ocean continued to roll.

A private approached the first sergeant and asked permission to speak to the captain.

"What you want to see the captain for?" the "top" asked.

"I'm gwine to tell that captain if he wants to get this here battalion of niggers home alive he'd better call this here ocean to attention."

A Tonic Laxative

that will remove the bile from the Liver and cleanse the System THOROUGHLY without griping or disturbing the stomach is truly a Perfect Laxative.

LAX-FOS WITH PEPSIN

Is the name of a Reliable and Perfect Laxative which soon relieves Sick Headache, Dizziness, Indigestion, Stomach Trouble, Gas and Piles caused by a Torpid Liver and Constipation. Always use a Reliable Laxative in the treatment of Colds, Grip and Influenza.

LAX-FOS WITH PEPSIN is a Liquid Digestive Tonic Laxative, excellent in its effect on the System, both as a tonic and as a laxative. It is just as good for Children as for Adults. Pleasant to take. Children like it. 50c.
Made and recommended to the public by Parke Medicine Co., St. Louis, Mo., manufacturers of Grove's Tasteless Chill Tonic.

Literacy Law Governing Election

May 24, Provides Voters Must Speak

English and Can Not Be Assisted

Austin, Texas, May 17.—The Dean law, which prohibits the giving of assistance to voters who are not physically disabled, is now in effect and will control election officials in the election to be held May 24 on the four constitutional amendments.

This law followed the testimony taken in the Glascock-Pharr contested election case, during which it was shown that for years it had been the practice in the Rio Grande section to vote Mexicans who could neither speak, read, write or understand the English language; and that a majority of the officials in many of the counties in the valley could not understand or speak English.

The law is now being contested by two naturalized Bohemian citizens of Bell county, but this contest will not affect the act so far as the pending election is concerned.

Text Of The Law.

The text of the law follows:

Be it enacted by the legislature of the State of Texas:

Section 1. That article 3003, Revised Civil Statutes of 1911, as amended by chapter 30, acts of the fourth called session of the Thirty-fifth Legislature, approved March 23, 1918, be so amended as hereafter to read as follows:

"Article 3003. Not more than one person at the same time shall be permitted to occupy any one compartment, voting booth or place prepared for a voter, nor shall any assistance be given a voter in preparing his ballot, except when a voter is unable to prepare the same himself because of some bodily infirmity, such as renders him physically unable to write, in which case two judges of such election shall assist him, they having been first sworn that they will not suggest, by word or sign or gesture, how such voter shall vote; that they will confine their assistance to answering his questions, to naming candidates, and the political parties to which they belong, and that they will prepare his ballot as such voter himself shall direct; provided, that the voter must in every case explain in the English language how he wishes to vote, and no judge of the election shall use any other than the English language in aiding the voter, or in performing any of his duties as such judge of the election, and in all cases where assistance is given hereunder two judges of the election shall assist such voter, they having first sworn that they will not suggest by word, sign or gesture how such voter shall vote; that they will confine their assistance to answering questions in the English language, to naming candidates and,

if the voting be at a general election, to naming the parties to which such candidates belong, and that they will prepare the ballot as such voter directs, in the English language; and where any assistance is rendered in preparing a ballot other than is herein allowed, the ballot shall not be counted, but shall be void for all purposes. If the election be a general election, the judges who assist such voters shall be of different political parties; if there be no such judges present, and if the election be a primary election, a supervisor, or supervisors, may be present when the assistance herein permitted is being given, but such supervisor of supervisors must remain silent except in cases of irregularity or violation of the law."

Penalty for Violation.

Section 2. Article 258. Any judge or other officer at an election who assists any voter to prepare his or her ballot, except when a voter is unable to prepare the same on account of blindness or some bodily infirmity such as renders him unable to write, or is over 60 years of age, or who shall aid such voter by using any other than the English language, or shall violate any of the provisions of article 3003 as amended by this act, shall be deemed guilty of a misdemeanor; and any judge or other officer of an election who, in assisting a voter so incapacitated, or over 60 years of age, in the preparation of his or her ballot, shall prepare the same otherwise than such voter shall direct in the English language, shall be deemed guilty of a misdemeanor. Any person convicted under this article shall be punished by a fine not less than \$200 and not more than \$500, or by confinement in the county jail for not less than two months and not more than twelve months, or both by such fine and imprisonment.

Emergency Clause.

Section 3. The importance of this legislation, and the fact that the calendar of both senate and house of representatives are very much crowded and the near approach of the end of the session creates an emergency and imperative public necessity, requiring the suspension of the constitutional rule that bills be read on three several days, and that this act take effect and be in force from and after its passage, and it is so enacted.

The above act passed the senate February 27, 1919, by a vote of 24 yeas and no nays, and passed the house of representatives March 10, 1919, by a vote of 96 yeas and 18 nays; was approved by the governor March 13, 1919.

"How to Live One Hundred Years" is the subject of a health lecture to be delivered by Dr. Charles E. Barker, who was physical adviser to the president during Mr. Taft's administration.

Mr. Barker says that the purpose of the lecture is not so much to prolong life as to increase energy and vitality while we live. Many people die before their time, and during their lives they are under par physically and mentally. They lack ginger, pep and energy and are thus unable to accomplish what they should, or get the full measure of enjoyment out of life.

Science holds today that sickness and disease are abnormal conditions which

are unnecessary and can be prevented. The working theory of all medical colleges is that impure blood is the root of all diseases.

This is particularly due to the fact that 92 per cent of the women and 78 per cent of the men over 35, have subnormal lung expansion. With the lungs, the great blood purifiers, failing to correctly perform their function, bad blood and lowered personal efficiency is bound to result.

In his discussion of diet, Dr. Barker tells why Bulgaria, with a population of 5,000,000, has more centenarians than any other country in the world.

GRADUATION GIFTS==

The end of school is near at which time many of
you will wish gifts for the Graduates and in our
Jewelry Section you will find an appropriate
selection both for the young lady or the young
man graduate.

Geo. A Thomas & Sons

DRUGS AND JEWELRY

Perhaps the most spectacular part of this remarkable program comes at the close, when Dr. Barker sheds his coat and demonstrates 13 simple exercises, with a running commentary on them while he is working.

When you listen to Dr. Barker you will hear a man recognized nationally for his achievements in the promotion of health and personal efficiency. In Dr. Barker, you will hear a man recognized nationally for his achievements in the promotion of health and personal efficiency.

Hundreds of communities throughout the United States have Barker Clubs, which are doing much to help people to be well and happy. Every man, woman and child in this community owes it to himself to hear Dr. Barker. His lecture is as interesting as it is instructive.

If it's in The Herald, it is news.

PROHIBITION MEETING AT SHARPE

A discussion of the amendments to be voted on next Saturday was had at Sharp last Sunday night. A party of Cameron folks went out to do the speechmaking and the report is that a very enthusiastic meeting was held. The party included A. H. Baskin, F. E. Jackson, W. O. Triggs and U. S. Hearrell. Mr. Hearrell is credited with a very fine speech, his main line of talk being on the suffrage amendment and it has been reported that he made a hit with all the feminine population of that fair little city.

The following also accompanied the speakers to Sharp: Sam Law, Roy Law, Mike Coleman and Joe Rienke.

ROY EPPERSON MARRIES IN SAN DIEGO

Word was received last week announcing the marriage of Roy Epperson, formerly of this city but now in the service and stationed at San Diego, Calif., and Miss Annette Persinger of San Antonio, at San Diego on Friday, May 16th.

Lieutenant Epperson has recently signed up for two years work in the Philippines and he and his bride will leave in a few weeks for the Islands. In the meantime they will come to Cameron on a visit to their parents, Dr. and Mrs. A. S. Epperson.

The Herald and the people of Cameron wish this young couple the happiest life possible.

Mrs. Tom Jeter of Jones Prairie spent the week-end in the city.

17 names are on the list. Of the remaining 11 men whose names do not appear, 8 boldly stated they were pros, 3 being under age, did not sign, while five of them declined to sign for various reasons. Three of the 28 men stated that they were antis. One of them saying he believed it made the town better to have liquor. Also note the fact that seven A. E. F. men are on the list. This is from a total of 8 A. E. F. men called on. The A. E. F. men all frankly stated that you will have no trouble in getting the A. E. F. boys to sign.

SOLDIERS OF MILAM MAKE STATEMENT

Large Majority Of Boys Who Fought For Right Take Stand For Prohibition.

We, the undersigned, having been soldiers and sailors in service in the United States Army and Navy during the Great War, resent and hereby refute the statement that has been made for political purposes to the effect that the soldiers and sailors are against the prohibition amendment to be voted on next Saturday. We hereby declare ourselves in favor of that amendment, and will so vote next Saturday. This is our answer to this political canard.

Out of a total of 28 men called on

To the Citizens of Milam County

Milam county is justifying our confidence that her people will come to the front and support our development for oil. Checks from as far away as Galveston are coming in for this stock. We feel confident that after thinking over the facts as we have presented them to you in our recent letter, you will send in your reservation to forward to conclusion the completion of drilling in a real gusher.

Our driller, Mr. Stitt, who is drilling the test on our lease on the Sam Brooks farm near Cameron, reports the formation and drilling conditions as favorable, with tabulations agreeing faithfully to the advanced geological report.

The formations are harder as the drill goes down at 300 feet which shows a good cap rock for the reservoir of oil which we expect to find underneath the structure there. We have arranged for additional acreage besides the 12,000 acres we have at present. This acreage is well recommended to us by our geologist Mr. Keaton, whose judgment we value as he has had a life time experience in practical oil geology and development. He should know good oil lands when he sees them. The success of petroleum geology, according to Mr. Keaton, is about 80 per cent safe in "wild cat territory" such as this country is.

Therefore your investment with us is a "good play" for oil production with the added advantage of our large lease holdings which enable us to facilitate more cheaply our drilling operations. Aside from our present active drilling program for two 1500 feet tests, we are making active arrangements to get Eastern capital interested with us to drill a deep test to a depth of 3,000 feet. This test we expect to have commenced within 100 days after leases are gotten up satisfactorily.

As compared with other oil development propositions in new territory, we are absolutely convinced that our plan of operations combined with the territory to be developed, far excels anything up to this time that is being developed in this county.

We extend this invitation to you to come in with us for at least a small block of our stock. We are sure you will own an interest with us that holds big possibilities for handsome dividends, and in event of our success you will have a comfortable feeling by knowing that you have helped to put Milam county in her proper place among the well known oil fields of the country.

Phone or wire your reservation at our expense at once. We may strike oil any day, and if so we reserve the right to advance the price of stock or take it off the market. We inclose an application blank for your convenience to mail in to us providing it is inconvenient for you to wire or 'phone.

Thanking you in advance for your favor, we are,

Yours for development,

CAMERON OIL & REFINING CO.

By Wm. HENDERSON, President.

After the Rains

You will need more Cultivators. We have a few John Deere Riding Cultivators at \$65.00.

We can also furnish you mowers and rakes, hay forks, hoes, sweeps and in fact all your needs in

FORMER CAMERON GIRL TO MARRY IN SHERMAN

The following invitations have been received in Cameron:

Mr. and Mrs. Robert F. Pool request the honor of your presence at the marriage of their daughter Lorene

to Mr. Berry Benson Cobb on Thursday, the fifth of June at four-thirty o'clock nineteen hundred and nineteen Six hundred and ten S. Crockett St. Sherman, Texas.

This invitation comes as an interesting bit of news to the people of Cameron as Miss Lorene spent most of her childhood in Cameron and we still think of her as a Cameron girl. She has visited Cameron frequently since the family moved away some years ago. Miss Lorene now lives with her parents, Mr. and Mrs. R. F. Pool in Sherman.

Miss Pool is a charming, vivacious young lady and is loved by everyone. The announcement party was given by her sister, Mrs. Carl Pool last Saturday in Sherman.

Forty-Two Party.

Mrs. H. F. Smith, Jr., gave a beautiful butterfly party to the Forty-Two Club last Thursday afternoon at the home of her sister, Mrs. R. A. Thomas.

Green, pink and yellow were the favored colors and these found expression throughout the house decoration and menu. The flowers on this occasion were gladioli, sweet-peas and nasturtiums and these were prettily arranged throughout the house. Butterflies in various hues and shades were used extensively and attractively in table coverings, talley cards and score pads. The 84 favors were little butterfly pins.

For success in the games Mrs. Roy Baskin received two dainty butterflies perched on vases of flowers. Mrs. B. P. Atkinson was given a beautiful bunch of gladioli for the consolation prize. After the games the hostess assisted by Mesdames R. A. Thomas and O. M. Smith served a delicious two course luncheon with butterfly decorations.

Mesdames S. M. Burns, Jr., and Henry Hefley were Mrs. Smith's guests for the afternoon.

After the social hour, a business session was held and it was decided to disband the club for the summer. They will meet again next October and their first meeting will be with Mrs. Oxsheer Smith.

MASONIC LODGE HOLDS BIG MEETING IN CAMERON

At a called convocation of Little River Royal Arch Chapter No. 66, held in lodge room in Cameron, last Thursday evening, May 15th, the conferring of the Royal Arch degree upon the last of nineteen candidates was completed. And there were present upon this occasion visiting companions from Rosebud, Calvert, Rockdale, Rogers, Hearne, Anderson, Austin and Franklin. When this was finished, to make complete the happiness of the convocation, there was contributed by the lady members of the Order of the Eastern Star Chapter No. 553 of this city and by the lady guests, a banquet which was prepared and served by them in the banquet hall in a most splendid manner. The following menu was enjoyed:

Ham and Chicken Salad
Olives Pickles
Sliced Tomatoes
Fresh Irish Potatoes
Bread, Coffee
Ice Cream Cake

The tables were decorated in great bowls of nasturtiums. Besides a large number of the Cameron Masons and their wives, twenty-seven out of town Masons enjoyed this elegant function.

The ladies of the Eastern Star and the wives of the Masons were guests of the Order at the Wonderland Theater before time for the banquet.

Mrs. Paul Porter of Branchville was in the city Tuesday.

FRED W. DAVIS URGES SUFFRAGE AMENDMENT

The following interview has been furnished by Fred W. Davis, Commissioner of Agriculture for Texas: "Every sane person subject to the laws of a commonwealth should have a voice in making the laws governing such a commonwealth and in selecting those who are to administer same.

"Men's work and women's work are fundamentally classified by nature and long usage. Our laws are designed, however, to cover the duties and responsibilities of both spheres, and the respective public interest of both sexes will follow their inclinations and responsibilities. The public thought of men is differentiated. Some men are primarily interested in legislation covering finance, some jurisprudence, home agriculture, etc. Women will naturally take public interest in laws regulating the conditions of the home, the school, the

workshop, etc., such interest not only being proper, but in many cases badly needed.

"I would depreciate any material change in the relation of the sexes, but would through her vote, have woman's thought and influence more fully reflected in the rules of action by which we are governed, politically and socially."

Six O'clock Dinner For Graduate.
Last Friday evening Mrs. T. S. Henderson complimented her daughter Miss Harriet, who is one of the high school graduates this year with a six o'clock dinner.

The guests of the dinner were special girls friends of the honoree drawn from the junior and senior classes of the high school, and quite a beautiful bevy of girls they were and what a lovely picture they made as they sat around the dining table in their beau-

tiful evening dresses. The center piece for the table was a gold basket filled with wonderful Easter lilies and ferns, the handle of the basket being topped by a large bow of the class colors, purple and gold. Vases containing pansies, the class flower, were also on the table.

The places of the guests were marked by dainty fan and boat cards. A five course dinner was served and between courses Miss Louise Green, as toastmistress introduced the following clever toasts:

Heliotrope for Devotion—the High School.—Miss Katy McCall.
Pansies for Thought—The Faculty.—Miss Owen Bacon.
Sweet William—The boys—Miss Madie Weaver.
For-get-me-nots—The Juniors.—Miss Esther Fielder.
Rosemary—For remembrance—The Seniors.—Miss Mildred Chambers.
My Garden of Beautiful Flowers—Miss Harriet Henderson.

After the toasts, Mrs. Henderson, in her charming way, presented each girl with a bouquet of flowers, making each a little speech telling why she selected that variety of flower for her. The guests of the evening were: Misses Owen Bacon, Louise Green, Elsie Horstmann, Esther Fielder, Madie Weaver, Mildred Chambers, Katie McCall, Irene Cheeves, Nadine Bragg, Annie Lee Peebles, Agnes Henderson and Juanita Caldwell.

After the dinner, the young ladies attended Miss Brougner's recital. From here chaperoned by Mr. Kidd, the serenaded their friends, after

singing themselves hoarse, the girls went to Miss Katy McCall's for the rest of the night, where a jolly good time was had and very little sleeping done.

Presbyterian Church.

We will have no preaching service Sunday, May 25, at the morning hour by reason of the union service at the Methodist church. In the evening at 8:30 the usual service, at which time we hope to have Rev. W. R. Hall, former pastor to preach for us.

H. R. MacFadyen, Minister.

Impounded in the city of Cameron one bay mare mule, 12 or 15 years old, 15 hands high, no brand, scar on left shoulder, crop on left ear. One mouse colored horse mule, 12 or 15 years old, no brand, saddle marks, 14½ hands high. J. E. Holtzclaw, City Marshal, Cameron, Texas. 3 2tp

Charter No. 5484.

REPORT OF THE CONDITION OF THE CITIZENS NATIONAL BANK at Cameron in the State of Texas, at the close of business on May 12, 1919.

Red Cross Sewing Rooms Close
Tuesday afternoon saw the winding up of the sewing department of the Cameron Red Cross.

A large crowd of women gathered at the rooms and made button-holes in the last of the refugee garments. After they finished their work they were refreshed with ice cream and cake.

The women of this town and community have done a wonderful amount of sewing for the Red Cross. It has

been a free-will offering and the ones who have had a part in it have enjoyed it the most in the world. Many of these faithful women deserve more than this passing word for they have been untiring in their work. But at this time we will only take occasion to mention the names of Mesdames R. P. Jeter and W. H. Henley who as chairmen of this work have stayed with it to the end.

Mrs. Tucker's Recital.

The voice and expression pupils of Mrs. Myrtle F. Tucker had their recital Tuesday night, May 20th at the high school auditorium.

All ages and sizes of children besides several grown-ups took part in this program. The program included

vocal and instrumental selections and readings. Several pianologues were given, and sweet strains of the violin obligato were heard frequently during the performance.

The young folks did their parts well and we are sure the teacher was very proud of them. A very pleasant evening was spent by the large crowd who attended the recital.

The friends of Dr. A. C. Scott of the Temple Sanitarium will be interested to know that his daughter, Miss Lucille, has just returned from France where for several months she did Red Cross work. Miss Lucille was business manager of three hospitals over there.

A negro soldier had been begging for a ride in an airplane. His pleas became so insistent that a white lieutenant finally decided to give him a few thrills.

When it came time for the ride the negro sort of hesitated, but he was game and climbed in. The lieutenant climbed to about 3,000 feet and stared looping, spinning and performing practically all the stunts known to aviation. Finally he went into a steep nose dive and headed straight for

the ground. It appeared as if he were going to crash, but when he got close to the ground he leveled off and glided away. A big crowd was watching them.

When he landed he said to the negro:

"They all thought we were going to crash, didn't they?"

"Yes, sir," the negro replied, "and 50 per cent of us up there thought so, too."

TRADE MARKS.

Did you ever consider the commercial value of certain well known trade marks, such as: "The Gold Dust Twins," "Uneeda Biscuit," "Wrigley's Spearmint" and other signs, symbols and words which are familiar to almost every man, woman and child in America?

The value of these trade marks can hardly be estimated in dollars and cents. Then did you ever think what has given them this value? "There's A Reason." The goods sold under and protected by these trade marks are possessed of merit of the highest order, and when a customer pays his money he receives one-hundred-cents-on-the-dollar value.

At Waco, Texas, there is a business college, supervised by Edward Toby, a practical business man and an expert accountant, which has given, for more than a quarter of a century, and is today giving to young men and women, course of study of unexcelled merit, in Bookkeeping, Banking, Telegraphy, Shorthand, Touch Typewriting, Adding and Posting Machines, the Calculator and all Modern Office Appliances. For this reason the students of Toby's Business College, or in other words, the young men and women possessing the Toby Trade-mark are able to secure and hold the very best commercial positions.

The business man knows when he employs a Toby student he is sure to receive one-hundred-cents-on-the-dollar service, because the said student has been given that grade of training.

This college also offers to ambitious people who cannot attend the school, mail courses in Arithmetic, English, Penmanship, Typewriting, Bookkeeping and Shorthand of the same high standard as those taught in the college. Courses which, in no wise, should be confused with many short, worthless mail courses which are offered the public at a very small fee. Remember it is not what you pay, but what you get in return for money spent.

Why not write, today, for free illustrated catalogue? State whether you desire to attend the College or are interested in mail course work, only. Address,

Edward Toby, President,
Toby's Business College, Waco, Texas.

We are proud of the confidence doctors, druggists and the public have in 666 Chill and Fever Tonic.—Adv. 18

Store Your Oil In It

If you have no other use for a silo you can use it to store your oil. (your eighth barrel.) and tanks may be scarce when the well "comes in" and no pipe line handy.

A Permanent Building

is what you want when you invest in a silo, and a silo made of All Heart Cypress and built as a Coons Cypress Silo is built is more of a Permanent Building that the house you live in.

The Coons Cypress Silo

with it's special method of construction, with no hoops to "adjust" (at a time you can't get to it); that does not need replastering every year or two; that has no guy wires in the way or to get loose, is

A Building—Not a Barrell

and is the best sleep insurance you can buy in a Silo, because it will withstand any storm that does not damage other buildings. Being made of All Heart Cypress it does not have to be "dipped," to prolong its life

Three of these Coon Cypress Silos are now in our warehouse at your service, and the cots is less than you would think—Ask us about it.

CAN YOU AFFORD TO WAIT?

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

COMEDY DRAMA TO
BE PRESENTED AT
THE CHAUTAUQUA

Horner System Offers an Innovation
In Megrue and Hackett's Great
Farce, "It Pays to Advertise."

"It Pays to Advertise," the comedy drama that enjoyed such a tremendous success during its run of an entire season, both in Chicago and New York City, will be seen at the Chautauqua this year, with the parts taken by many of the players who were with the original company in New York.

The generous patronage and enthusiastic receptions accorded dramatic productions of the Chautauqua has encouraged Mr. Horner to secure for this year's program the most expensive dramatic production that he has ever engaged.

"It Pays to Advertise" was hailed by the New York critics as the best comedy of the decade when it was produced there two years ago. It abounds in comical situations and keen wit. Before the curtain has been drawn five minutes, the people begin to see that they are in for an evening of real pleasure. The folks will forget there is such a thing as worry, debt or misfortune in existence. Comfort and pleasure and laughter for two solid hours are assured.

The play is essentially American. The brand of humor is characteristic of American writers and the characters all have their prototypes in any American community. The story has to do with the efforts of the rich, self-made business man to make his idle son go to work and show a little back-bone. How the son gets stirred up—thanks to the goading of a clever stenographer—how he outwits his father in business and makes a remarkable success, all these things must be seen to be really appreciated.

At the conclusion of the play you will all agree that it really does pay to advertise. The young man's success is built upon no other foundation than advertising. He creates a demand for a certain commodity—just plain soap—but he has no supply. What he does, however, is to make his father's concern buy the trade-

mark and the commercial name of the article he has advertised.

Redpath-Horner Chautauquas is paying a royalty to Roy Cooper Megrue and Walter Hackett, the authors of "It Pays to Advertise," for the privilege of using this comedy-drama for the Chautauqua program.

The Stereoscope In The War.

The information comes late, but is none the less interesting, that the old fashioned stereoscope, easily recalled by many people as an entertaining ornament of parlor tables, helped materially in "winning the war," says the Christian Science Monitor. The stereoscope gives to the combined images of two photographs of the same scene and effect of depth lacking in the single picture. It makes things stand out because, optically, the subject is looked at with two eyes, as a man looks, instead of with only one, as looks the camera. This idea was applied to aerial photography, two

pictures being taken, as if the photographic lens was first one eye and then the other, 100 yards apart, of an observing giant. And the two pictures, combined by looking at them through a stereoscope, corrected the flatness of the single photograph, revealed the relative heights of different objects, and often defeated the enemy efforts to camouflage.

Spend Your Money

with your home merchants. They help pay the taxes, keep up the schools, build roads, and make this a community worth while. You will find the advertising of the best ones in this paper.

Premier Concert Artists

Nine Musical Artists of highest rank, organized under the personal supervision of Chas. F. Horner, will appear both afternoon and evening of the last day of the Chautauqua.

This Company consists of six splendid soloists, supported by Piano, Flute, and Violin. The Program will be given in English.

Elaborate stage equipment accompanies these artists.

AMERICAN TRACTORS TO FARM THE WORLD

More Than 314,000 Motors For Farm

Use Will Be Manufactured.

More than 314,000 motor tractors for farm use will be manufactured in the United States this year, according to the estimate of the Agricultural Department.

Ninety thousand of these tractors, representing about \$100,000,000, will be sent abroad to foreign countries and will be used to increase the crop production of nearly every country in the world.

Working with a tractor, one man can do more work than six men, thirty horses or a hundred oxen under the old fashioned methods formerly in vogue. This will make up in a large way in Europe for the shortage of men caused by the war.

The power of all tractors is derived from internal combustion engines. The fuel used is generally kerosene, though some use gasoline. Practically all have magneto ignition, because of its intense spark, simplicity and absolute reliability. It would be impossible in foreign lands to use any other form of ignition.

The sturdiness of the magneto enables it to withstand rough usage and being a self-contained generator of electrical energy, which requires no

attention or replenishing, it is made the use of American tractors possible everywhere.

Altogether, there will be about half a million American built farm tractors at work in 1920, where there were practically none five years ago. The United States leads the world in this line of manufacture.

Refinishing Gas Pump.

As is his usual way of doing things, Clyde Franklin is this week refinishing the Big Chief Sentry Bowser gasoline pump which stands in front of the Chambers-Hefley Garage. He failed, however, to replace the old name on same and instead has printed in gold leaf letters what is going on inside the building, Ford Service Station. Clyde can always be depended on to do his part to make things look better around where he stays.

REPORT OF CHEVROLETS SOLD.

Mr. Bob Daugherty of the Chevrolet Motor Company reports the following sales during the last few days. Henry Sapp, touring car; Henry Hefley, roadster; Mr. Henry Black of Jones Prairie, a touring car and F. F. Reed of Cameron, a touring car.

SAM MEWHINNEY BUYS OAKLAND.

Joe J. Michalka, local distributor for the Oakland Sensible Six reports the sale of a touring car on last Tuesday to Mr. Sam Mewhinney of Buckholts.

THE HERALD'S NEW SECTION

Beginning with this issue of The Herald it will be the purpose of the management each week to carry a section of automobile and good roads news. Our purpose in taking this action is to promote good road interests in Milam county as well as keep our readers posted on the advancement of the automobile industry, which has grown faster and larger than any single enterprise that has ever been started in the United States. We propose to give each week articles on the various makes of automobiles and their achievements, bearing especially upon those makes handled by local dealers. We shall not attempt to cover the field each week but in the due course of time we expect to treat every dealer with the same courtesy and in every manner alike.

We propose further to carry the registration of all cars in the county and the sales made during each week by local dealers.

We desire to establish a question

column and have made arrangements with one of the best mechanics in the city to answer all questions sent in, we shall select a certain number each week, the ones of most interest to all, and publish the question with its answer.

In our good roads department we propose to keep our readers posted on all road matters in the county. Milam county now can boast of an expert highway engineer, Mr. A. F. Mitchell and an assistant, Mr. S. S. Strahan, and it will be our purpose to keep in touch with these gentlemen and keep the public informed as to the progress of road building in the county.

In order to make this section of The Herald a success it will be necessary to have the cooperation of everybody interested in these matters. If you see or hear of a good story that will interest the general public we will consider it a special favor to have same and if this new venture is a success it will require this kind of cooperation.

BRANCHVILLE ROAD BEING SURVEYED

County Engineers Mitchell And Strahan Getting Data Ready For Highway.

County Engineer A. S. Mitchell and assistant S. S. Strahan are this week at work making a survey of the Branchville road district which has a total of \$45,000 available for road construction. \$25,000 of this amount was voted as a special tax and the remaining \$20,000 comes from the State and Federal aid. This highway is a connecting road between the two Meridian Highways and the road under course of construction runs from Harold's Creek bridge to the Port Sullivan bridge on the Brazos river, connecting with the Hearne pike in Robertson county.

The engineers are making this survey with the view of getting plans and specifications, after which they will be submitted to the State Highway Commission and to the Federal Highway Commission. Information is to the effect that it will require only a short time to complete this survey and other important work of this character will be taken up.

Both Mr. Mitchell and Mr. Strahan have had lots of experience on State Highways and their knowledge of the requirements of the higher officials renders their services all the more valuable to Milam county.

AUTOS REGISTERED COLLECTORS OFFICE

Registration Of Various Automobiles During Period Of Week In Milam County.

The following cars have been registered at the office of Tax Collector Bill Alex Bonds during the period of a week covering from Tuesday, May 13th to Tuesday, May 20th:

- 1587. Mrs. Alice Breacher, Cameron, Route 3, Ford.
- 1588. W. M. Phipps, Cameron, Route 2, Ford.
- 1589. Hilary Stedman, Cameron, Ford
- 1590. A. G. Hopper, Rosebud, Route 3, Saxon, 1916 Model.
- 1591. Mrs. Mattie Springer, Cameron, Ford.
- 1592. W. A. Smith, Milano, Ford.
- 1593. Chas McDermott, Cameron, Ford.
- 1594. H. Lockwood, Rockdale, Interstate Truck.
- 1595. E. L. Tucker, Cameron, Chevrolet.
- 1596. J. D. Kirk, Gause, Ford.
- 1597. R. Emmett Lucky, Rockdale, Mitchell, 1912 Model.
- 1598. John Worley, Thorndale, Hupmobile 20.
- 1599. John Timmerman, Jr., Rockdale, Ford.
- 1600. Wm. Hedden, Rockdale, Ford.

YARRELTON TO VOTE ON ROAD BOND ISSUE

Election Will Be Held Saturday For Issuance Of \$50,000.00 To Build Roads.

Much interest in being manifested in the good road bond election to be held in the Yarrelton Road District next Saturday, May 24th. This election has been ordered for the issuance of \$50,000 in bonds to build good roads and everything points to an overwhelming majority.

The good road enthusiasts are looking for a big majority as there is practically no opposition.

When these bonds are carried and sold on the market, a road covering the following territory will be built: Beginning at Wakaty and running to Yarrelton and from Yarrelton to the Belton Crossing. From Yarrelton to the Marak road district line on the Waco crossing road. This will connect with the North Elm and Marak good road district, which have already voted bond issues and will connect with the good roads that lead into Cameron. With this issue carried, which is a certainty this end of Milam county will have every highway a pike road.

ATTENDS BIG AUTOMOBILE MEETING IN DALLAS

Harvey Gandy, the local Nash-Six distributor returned Tuesday night from Dallas all puffed up over a meeting he had attended in that city during the first two days of the week. It was a state meeting of Nash dealers and there was in attendance, some of the "big bugs," as Mr. Gandy puts it, from the factory at Kenosha. He saw one of the new 1920 models and says it is a peach.

\$2,000,000 ROAD BOND ISSUE OF JOHNSON CO. APPROVED

Cleburne, Texas, May 17.—The \$2,000,000 good roads bond issue for Johnson county, having been officially approved today by the Attorney General, County Commissioner Curby said the next move would be to employ a first class road engineer and proceed to lay out a road system to be immediately constructed by the county.

BUYS NASH SIX

Mrs. J. B. Cavitt has purchased from Harvey Gandy, local Nash-Six dealer, a handsome touring car which will be her own for the use of herself and friends.

1601. H. Black, Cameron, Chevrolet.

1602. James L. Britton, Buckholts, Ford.

1603. T. B. Stone, Thorndale, Ford

1604. Sam Mewhinney, Buckholts, Oakland Sensible Six.

U. S. TIRES ARE GOOD TIRES.

I was much pleased with the advertisement of automobile tires I saw the other day. I had been passing many enormous board notices, gaudy in hue, striking in design. "Buy Live-forever Tires! They last like steel." "Use Rockaway Tires. No other rides so smoothly." "You'll come to Ne Plus Ultra Tires! Don't Wait!" "The Bestofall Tire! Nothing like it!" So the shrieking advertisements vibrated through the landscape.

Then I saw the quiet announcement: "Smith tires are good tires." Just

that. You can't imagine how restful it was. Immediately a sense of solid satisfaction came over me. "Good tires." No need to bluster and howl. No need to ransack the dictionary for superlatives. No need to run down competitors. "Smith tires are good tires." I wanted to buy some at once. Those are the tires for me henceforth. "Good tires." That is the acme of advertising.

Ah, when will people learn the delicious value of quiet, self-respecting simplicity?—From Christian Endeavor World.

WAR ACTIVITIES FORD MOTOR CO.

Without going into particulars, the following items will give some idea of the value the Ford Motor Company was to the government of the United States in its call for the sinews of war:

More than 2,000,000 steel helmets.
Order for 5,000 12 cylinder Liberty motors. Over 1,500 had been delivered, and we were just striking our producing capacity.

Ten thousand saissos, mainly for 155 mm. guns. Something over 8,000 delivered.

Order for 112 "Eagle" boats, 200 feet long, 25 feet beam. Something like 25 delivered, when the order was reduced to 62. The balance will be finished by the last of August.

More than 8,000 trucks. More than

25,000 regular Ford cars. More than 6,000 ambulances.

Four hundred thousand cylinders for Liberty motors. Because of the superiority of the work on this article, the government placed the order with the Ford Motor Company to make all the cylinders for all the Liberty motors made in America. The original order was practically completed when the armistice was signed and a new order for 300,000 had just been entered.

Seven hundred thousand bearings for the Liberty motor. Here again the government recognized the superior quality of the bearings made by this company, and placed the order with us for all the bearings for all the Liberty motors made in the United States. On this order over 400,000 bearings had been delivered.

Seven hundred cylinder forgings for Liberty motors. Once again the government recognized the superiority of Ford work, and placed orders with the company for all the cylinder forgings for all the Liberty motors

made in America. Over 400,000 had been delivered.

A large volume of experimental work was done in building three ton military tanks and the government had just placed orders for 15,000 of the small two man military tanks, and 3,000 of the six ton, military tanks. Cancellation came before more than a dozen or so tanks had been delivered but the foundations had been laid and the superstructure almost completed for an enormous building in which we intended making tanks alone. Of course, this building comes in mikhty useful in the enlargement of our business.

Motion picture reels in behalf of Liberty Loans, Red Cross and patriotic fund work were made by the company and supplied to the government in sufficient quantities to serve the entire United States in motion pictures. Motion picture reels in volumes sufficient to serve the armies of the United States in France, Italy and Palestine were furnished by the motion picture department of the Ford Motor oCmpany.

We also did more than \$1,000,000 or work in the production of special devices for the naval department of the British government.

We also furnished the government with 275 skilled mechanics for work in France.

We also, through our chemical laboratory, co-operated with the manufacturers of gas masks for the United States Army.

An average of 34,000 men and women were employed by the main factory at Highland Park; 6,800 men at the ship building plant on the River Rouge; 4,000 men employed at the new blast furnace in course of construction on the Rouge; 250 men employed at the carburetor plant, or an average of 45,000 employees, practically all on 100 per cent government work, under a standard eight hour day and a minimum wage of \$5.00 a day.

\$150,000 OF ROAD BONDS VOTE IN GRAYSON COUNTY

Sherman, Texas, May 17.—The Howe district last Saturday voted \$150,000 on bonds for good roads purposes. The vote was 169 for and 44 against the proposition.

WILL TAKE BIDS TO BUILD ROADS

Rockdale Road Leading To Tracy-
Cameron Road Is First Step In
That District.

Information has been given out this week that bids will be advertised for to build the Rockdale Pike Road leading from that city to the Tracy-Cameron road leading out from the county capital to the Cameron Oil field at Tracy.

This is the first big step taken since the sale of the Rockdale road bonds some few weeks since and is the first long stride this little city has made towards actual road construction but will mean much to them. It is planned by the commissioners' court to get as many bids as possible from reputable road builders and get the most for the money. An ad will be carried in a county paper and also in the Sunday Dallas News.

Bids for the construction of the concrete work will also be advertised for at the same time as nothing but the very best of concrete bridges and concrete culverts will be constructed.

Under the supervision of Milam's newly acquired highway engineer, Mr. A. F. Mitchell and Mr. S. S. Strahan, the people can rest assured that nothing but the best of work will be the outcome.

The building of this first strip of pike road in the Rockdale district will doubtless be an important event for this city, there are varipus reasons for it being, among them that it connects Rockdale with the Rockdale-Tracy oil field, which joins the Cameron Oil Field.

OVERLAND MODEL 90 IN NEW FEAT

Word has just reached Los Angeles of the feat of an Overland Model 90, which established a world's record for a non-stop run with the gears sealed in high a few days ago in Oklahoma. According to the information received by Walter Roach, manager of Overland Sales Company, the car was driven on the roads around Oklahoma for seven days and in the 168 hours of continuous running the car covered 4,370.1 miles, which exceeds by about 100 miles the record established a month previous by a Maxwell car in Los Angeles. The Overland averaged 624.3 miles a day and got 20.66 miles out of each gallon of fifty-nine test gasoline.

The run was held by Dick Carhart of the Carhart Motor Company of Oklahoma City, Overland and Willys-Knight dealers. The car was run on dirt roads more than half the time and the rest of the run was on rough country boulder stretches and the poor pavements of the suburbs of that Oklahoma city. The carburetor was never adjusted; or a spark plug replaced. There were but three punctures.

During the seven days of continuous driving, the Overland 90 encountered two days of hard driving rain and for twelve to fifteen hours of each twenty-four were spent in the traffic of the city.

Four drivers were used, working in four shifts.

The run was planned by Carhart in an effort to break existing records for a sealed-in-high-gear, non-stop test. The judges for the event were carefully selected. They were the president of the chamber of commerce the managing editor of the Daily Oklahoman and the managing editor of the Oklahoma Daily News.

These men checked the reports of the observers and closely followed the car themselves. The run excited the greatest attention throughout the state as a demonstration of the economy and efficiency of operation possible in a modern Thrift Model of the Overland car.

The trip started when the automobile, officially sealed and inspected, rolled forward from the desk of the Lee Huckins hotel, through the door and down the steps into the street. The car finished its remarkable economy run by pulling up in front of the hotel desk. The motor was stopped for the first time in seven days.

CHAMBERS-HEFLEY DELIVERIES

The Chambers Hefley Motor Company have delivered the following cars during the past week:

Mrs. Alice Brashear, Cameron.

Giles McDermott, Cameron, Tractor

CHEVROLET

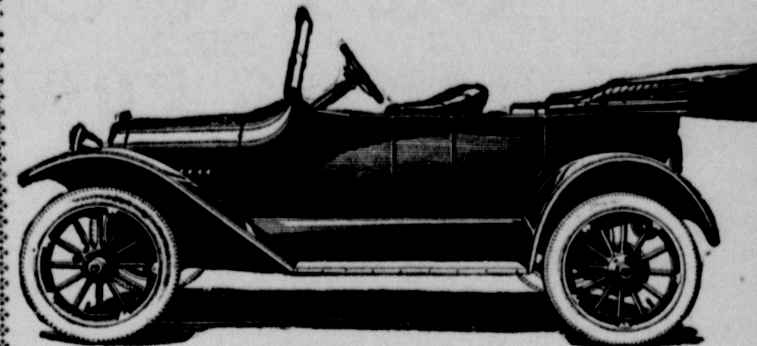

The steel used in the manufacture of all the important parts of Chevrolet cars represents the highest development in the art of steel making. To this master product of steel the Chevrolet owes its wonderful stamina and enduring life. For instance, the axles on a Chevrolet car could be twisted and distorted entirely out of their original shape without breaking. All other such important units could be subjected to just as severe strains, which are seldom if ever encountered in actual motoring without damage.

This is one of the many reasons that Chevrolet cars give such satisfying service year after year with remarkably low cost of upkeep.

CHEVROLET PARTS CARRIED IN STOCK

Daugherty Motor Co.

CAMERON, TEXAS

DODGE SERVICE-- HOW ATTAINED

"Changes that are made from time to time in the Dodge Bros., car, originate in the engineering department and not in the sales department. They are made, not with the idea of making the cars sell easier, but for the single reason that the cars will be made longer lived and give still better satisfaction because of them," declares Ralph Chambers, the local Dodge distributor.

"In the building of more than three hundred thousand cars of a single model, the Dodge engineers have never relaxed their search for changes that might improve the car. So careful was the preliminary work before the first Dodge was built, that no radical changes have yet been found necessary. Nevertheless, minor improvements are constantly being

made. "Nine out of ten of these changes are of such a character that the average buyer would never know they had been made. Even our Dodge salesmen did not notice certain recent improvements in the latest Dodge cars. They consisted of the enlarging and strengthening of parts of the steering apparatus. No trouble had ever arisen there, but the engineering department decided that the car would be stronger and more enduring if the changes were made. A more lasting owner satisfaction is the only result that can be expected from these changes, for they were not made with the idea of lessening sales resistance, but with the sole idea of bettering the car."

How Much is 1¢

Suppose that for one cent you could insure the quality of your cake, biscuits, etc., wouldn't that be real economy?

Well, one cent is about the difference in the cost of a whole cake or a pan of biscuits made with Dr. Price's Cream Baking Powder as compared with cheaper baking powders made from alum or phosphate — a trifle, indeed, to insure the quality and wholesomeness of your baking.

DR. PRICE'S CREAM BAKING POWDER

Made from Cream of Tartar derived from Grapes

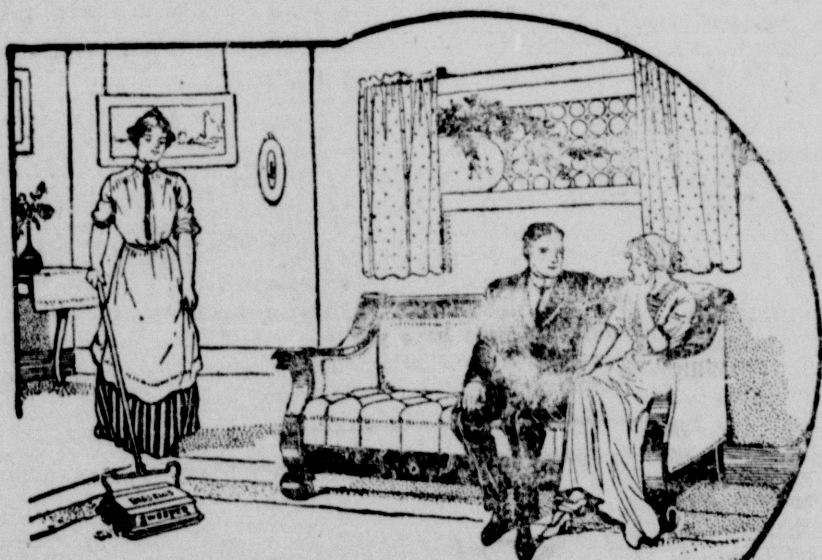

Contains No Alum—Leaves No Bitter Taste

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous things in the medicine line.—Adv.

Mechanism in a German lighthouse that uses electric lights automatically switches on a new lamp and moves it into focus should the original lamp be extinguished.

Rub-My-Tism is a great pain killer. It relieves pain and soreness caused by rheumatism, neuralgia, sprains, etc. Adv.

PRODUCE MERCHANT

GAINS 30 POUNDS

Is Also Relieved Of Rheumatism Through Taking Course Of Tanlac.

"I not only gained thirty pounds on a few bottles of Tanlac but can do more work than I have been able to do at any time in the last ten years," said C. B. Gwin, a well known produce merchant of Amory, Ill.

"For a long time my system was debilitated," he continued, "and my digestion out of order so I could hardly eat a thing. I suffered from awful headaches, my nerves were on a strain and my muscles felt like they were tied into knots with rheumatism; I lost weight and got weaker every day."

"I was induced to try Tanlac by a friend and it is making a new man of me. I now eat and sleep better than I have in years, my rheumatism is all gone and I feel stronger and better than I have in a long time."

Tanlac is sold in Cameron by all the leading druggists.

Army Worm Control Measures.

The indications are that the army worm is likely to do serious damage in certain parts of the state unless proper control measures are adopted immediately.

The numerous inquiries being received by the Extension Service, A. & M. College have caused Mr. W. P. Lanham, State Leader of Specialists, to give out the following information regarding this insect and the control methods recommended by the Entomologist.

In occasional seasons, dull, striped worms, related to the common cut worm, become unusually abundant and march from field to field, devouring corn, wheat, oats and other related plants.

Individual specimens of this insect are in the fields every year, but only occasionally do they appear in sufficient numbers to become a menace. When they become sufficiently abundant to travel openly as an army, from one field to another, the invasion may be stopped by plowing three or four furrows and maintaining as thick a dust as possible. As the worms collect in the furrows they may be killed with a drag or sprinkled with pure kerosene.

Another method to prevent them from entering the field is to plow or dig a rather deep ditch with a steep vertical side next to the field that is to be protected. In this ditch every few feet apart are dug deep holes with a post hole auger. The worms will fall into these holes and perish, and owing to the steep side next to the field, few will be able to get up and enter the field.

After they have once gotten into the field the best remedy is a poisoned bran mash, made as follows:

Thoroughly mix 50 pounds of bran, 2 pounds of Paris green and 3 finely chopped lemons. Stir to a deep mash with 4 to 7 gallons of water sweetened with ½ gallon of low-grade molasses. Sow sparingly around bases of plants and broadcast over the field where infestation is general.

It will not be possible for our entomologist to visit every county should this invasion become widespread. So I urge all County Agents to keep a sharp lookout and if the Army Worm appears, at once mail in specimens to Mr. Lanham for identification and see that the above mentioned control methods are vigorously carried out.

Far East Bronchitis.

A new bronchial disease, brought by the war from the Far East and observed in thirty men in the Marine Hospital at Toulon, has been reported to the Paris Academy of Medicine. It was at first diagnosed as tuberculosis, which it resembles, but none of the patients showed the bacillus of this disease, while all were infected with another parasite—Spirochaeta bronchialis. A curious symptom of the new malady is a rose-colored spit. The disease is apparently very contagious, though slow in development and not generally dangerous, but seems likely to induce dangerous complications, like tuberculosis or pneumonia.

The Chinese Government is preparing to begin an aerial passenger and mail service, using Japanese airplanes.

Tan-No-More THE SKIN BEAUTIFIER

The most scientific and most wonderful facial preparation of the modern age. It imparts to the skin a velvety softness and delicacy which is delightful in appearance and pleasing in effect. Used during the day it is a protection from the Sun and Wind. In the evening its use assures a faultless complexion. Tint: White and Flesh. All dealers \$2.50 and \$1.00, or sent post paid for 30 days. Sample for the asking.

WILLIAMSON & COMPANY, LONDON, ENGLAND

Italian Bersagliere Band

War Veterans of the Italian Army will give Program of Vocal and Instrumental numbers at the Chautauqua.

Hear the Fanfare

and

Bersagliere Trumpeters

which were so popular with the Italian sharpshooters and their music-loving countrymen.

The members of this organization are the picked musicians of Italy. Everyone is proficient, both in ensemble and solo numbers.

Their appearance in the dress uniforms of the Italian Army will be one of the novel and interesting features of the Chautauqua.

They will render the full program both afternoon and evening.

The Man Who Saves.

What does he gain by thrift? He builds a bridge to a better job; he sets up a ladder to climb in the world; he gives his family a better chance; he develops self reliance; he is ready for sickness or hard luck, if it comes.

What does thrift mean in his work? He has too much respect for time to waste it; he has too much respect for his tools to injure or waste them; he is capable of handling other men's business; he is marked for a better job.

What does Thrift mean to the government?

His savings help to pay the cost of victory; his investment in War Savings Stamps makes him a part of his government; his savings help to protect every American home; his savings help add to the material resources which make America invincible.

What does his Thrift mean to the community?

He helps industry by the avoidance of waste in time, energy, materials and money; he is a steady force among his fellows; he acquires good judgment and helps promote the general welfare; he gets into the class of those who do things.

The U. S. airplanes attempting to cross the Atlantic carry a message of good will from Harold Braddock, Director of American War Savings,

to Sir Robert Kindersley, Chairman of the British War Savings Committee, London, England.

Have you brought your Thrift Stamps today?

The Rainbow Division had gone over the top at San Mihiel. The objective had been taken and the advance elements were beginning to run into the fire of the withdrawn German guns.

Suddenly there was the whine of a shell and a detachment of scouts threw themselves flat upon their stomachs. The shell struck beside one of the doughboys but it did not explode. It was a "dud."

The soldier detached himself from the group and, stooping over, he patted the base of the half buried projectile.

"Nice, pretty shell, cute little shell. But, look here, dud, don't you fool me," he cooed.

How Can This Be?

It is a little late in the year for this story, but a teacher told it to us and we thought it was good enough to pass along.

She had asked the pupils to write a story about Lincoln, and this is the way one youngster began: "Abraham Lincoln was born Feb. 12, 1809, in a log cabin he built himself."—Columbus (Ohio) Dispatch.

Calomel Today! Sick Tomorrow! I Guarantee Dodson's Liver Tone

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes in contact with sour bile it crashes into the stomach causing cramping and nausea. If you feel lousy, headachy, constipated and all packed out, just go to the drug store and get a bottle of Dodson's Liver Tone for a few cents. It's a harmless vegetable substitute for dangerous calomel. Take it and you'll feel like a new man.

your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and healthy. Take it like a man.

ROCKDALE REPORTER,

Rockdale, Texas.

Pupils of Miss Brougner Give Recital

Miss Bonnie Brougner's piano and voice pupils gave their annual recital last Friday night at the high school auditorium.

Quite a large crowd attended and quite an enjoyable program was carried out. The performance consisted of piano solos, duets and trios interspersed with vocal solos, duets and choruses. All of these numbers were well rendered and showed that Miss Brougner was sparing neither time nor thought in giving these young people the best.

Surprise Birthday Dinner.

Mr. Bob Wiley was treated to a big surprise last Sunday in honor of his 54th birthday which was on Monday. A party of relatives from Thorndale came over that morning to visit the family and without Mr. Wiley's knowledge brought a ready prepared dinner that included everything that is good to eat. He was kept in ignorance of the whole affair until the time came for dinner when he was invited in the dining room along with the rest.

The party included Misses Minnie and Fannie Young, Mr. and Mrs. Arthur Young and two children, Mr. and Mrs. Sharp Young, John Young and little Millam Lee Young.

Lieut. C. W. Harrison, Jr., of Fort Worth, engineer for the S. W. T. & T. Co., stationed at Fort Worth, has been a business visitor in Cameron this week. He is just lately returned from overseas service, being one of the number who volunteered for training at Leon Springs and won a commission as lieutenant. Lieut. Harrison is a cousin to Mrs. E. L. Beard of Cameron and she with her children enjoyed his visit here to no little extent as they had not seen him for more than two years.

STENOGRAPHIC Position wanted immediately. Good references. See Russell Bonser at the Herald office or write Alita Bonser, Comanche, Texas.

NEW ADDITION TO CAMERON HERALD FORCE

The management of the Herald is glad to announce this week the addition to Mr. Russell Bonser to our force. Mr. Bonser comes to Cameron from his home in Comanche where he has spent a number of years in the printing business doing a general line of work. He will be connected with the job end of The Herald and his expert knowledge of the job art makes a valuable addition to our present efficient head man, R. E. Higgins, in this department, who is an artist in his work which he follows from choice and not by accident.

Mr. Bonser was accompanied to Cameron by his wife and they have come to make this city their home. For the present they have rooms at Mrs. Harvey Gandy's and are boarding at the Rookery.

The Herald joins in extending a hearty welcome to these new people and bespeak a long and pleasant stay.

Adding New Equipment.

Manager W. F. Henrichsen of the Texas Bottling and Ice Cream works announces that he will soon have in operation the biggest and best ice cream manufacturing machine in this part of the state and will be prepared to take care of orders in any size sent to him. He has also added a machine for making brick ice cream and can deliver on short notice the very best in this line made in any flavor. Henrichsen believes in keeping his plant up to date and never falls down on an order and we dare say he is enjoying one of the biggest ice cream and bottling business in middle Texas.

CENTENARY RALLY AT METHODIST CHURCH

Dr. H. W. Cummings of Hearne will be the principal speaker at a Centenary rally at the Methodist church Sunday night. Rev. B. T. Bell of Rosebud will also be one of the speakers of the occasion. Prof. L. H. Kidd, superintendent of the drive in Cameron will have charge of the service.

The Triggs Dry Goods Company's Store News

The topnotch of variety and completeness has been achieved. Our stocks at this moment are at their fullest and best.

But to supply your needs; to make profit on every piece of goods we sell you is not our excuse for being. We realize our responsibility and the fact that our success can only depend on the character of SERVICE we render you. We want to merit your confidence in large matters as well as we do those of minor note.

One of the great lessons the great war taught us was--how to help the other fellow and how to profit by his help. Co-operation and service go hand in hand and if the Autocrats of Europe had but remembered their duty to the people, the greatest of wars would not have shaken the foundation of the world. You permit your needs to be taken care of by business organizations and as a part of those organizations we shall always endeavor to keep it in mind that:-

Service in the correct sense of the word is the only possible business policy.

The Ways of Fabrics Are Varied.

And printed Georgettes merits a good share of our applause by appearing in patterns as fascinating as they are unusual. One visit to this display and you will want a fresh new frock if for no other reason than to see how charmingly these combinations of Georgette may be developed. It is 36 inches wide and is temptingly offered at \$2.75 a yard.

See Window Display of Henderson Corsets

As Fine as Cobweb Is the lovely lace which we are featuring at very low prices. It takes but a moment to evolve from the daintiest neckwear fancies imaginable.

SUITS FOR SWIMMING

A stroll down the beach may furnish enough thrills for many, but milady who wears this stunning wool bathing suit is satisfied with nothing less than a good vigorous swim. And she won't catch cold either when she leaves the water for it dries in a moment, and even after a season's active wear this suit will look quite as attractive as the day it lured you to select it.

HOSIERY WEARS

as long as it should when it is re-enforced at heel, toe and garter top. Our hosiery not only fills this requirement but it looks well and fits well which is an important consideration when the perfect ensemble of one's costume must not be marred by hosiery wrinkles or draws. Good quality lisle 50c and 75c. Silk Hosiery \$1.00 and up.

The Store That Grows and Keeps Growing

A Feature Attraction At Chautauqua

ST. CLAIR SISTERS

Lead off with the fun on "Friendship Day." They are personality, music and entertainment plus.

International Grand Champion

Poland China Boar, 1918. From a Photo

This fellow is the real aristocrat of hogdom and outside of the pride he gives his owner he can be sold any time for enough to buy a good farm almost any place.

Yet he occupied no more room than a runt and has cost no more to raise. His owner started in the business with a \$25.00 pig, only a short time ago.

The world needs hogs; it will continue to pay for them. The better the hogs, the better the pay.

This bank does not put itself in the position of tell farmers how to farm, but we believe in good hogs. The kind that can sometimes be sold for breeding purposes at a high price.

Velvet

THE FRIENDLY TOBACCO

Horse Sense About Tobacco

Good tobacco ought to be like a well-bred hoss—all th' kick taken out but all th' sperit left in.

You see, half the secret of makin' a good hoss is in the breedin' an' half in the breakin'. Selectin' tobacco that's grown right is only *half* of makin' Velvet. The agein' is the other half.

Thar's only one kind of agein' that gets th' right results—*Nature's own*. Nature's no clock watcher. She does a job *right* whether it takes two years or two thousand.

So when she gets through with the fine Kentucky Burley that we put away in wooden hogsheads for two years, it's just *right*.

It ain't been hurried none, or short-cutted. It's a Nature-done job.

All kinds of things are packed in tobacco tins, but your good neighbor will tell you "Velvet is the real pipe tobacco." Prove it for yourself.

Seniors Donate Civic Books To School Library.

Realizing that our high school library is in many respects very deficient, Miss Williams the history teacher suggested a plan by which the civics department of next year's library was materially aided.

Next year the state will furnish and require the use of an adopted text book for senior civics. But it will not be the same one that this year's senior class has used, and is in some respects inferior to it. She therefore asked that all seniors donate their books to the library if possible to be used as source books in the following years. As a result a large number of books were obtained, with comparatively little cost to the seniors and with a great deal of saving to the school.

Orchestra Plays at Court House.

On Saturday afternoon, upon a very short notice, the orchestra gathered on the Court House lawn to furnish music at the opening of an address on the prohibition amendment.

Recital By Miss Bonnie Brougher's Music Pupils.

Last Friday night a recital was given in the high school auditorium by the music pupils of Miss Bonnie Brougher. The entire program was highly appreciated by a large audience.

During the evening there were several piano selections by pupils of various degrees of advancement. There were also songs by the Girls' Glee Clubs, the Dixie Girls and the Bonnie Girls. The audience was favored with vocal solos and duets by the individual members of these clubs.

There were also vocal solos by Messrs Cecil Barmore and Price Cross.

Baccalaureate Sermon.

The baccalaureate sermon for the seniors will be held at the Methodist church, Sunday morning, May 25, at eleven o'clock. The services will be conducted by Rev. W. R. Hall, formerly minister of the First Presbyterian church of this city.

Weekly Explosions.

Furthermore, we wish to state that some reason should always be used—even on English examinations.

It is our idea that seniorless weeks are as helpful to the school as wheatless and meatless days were to the nation.

Mrs. Solomon asks: "If it takes four hours and a half for the seniors to make failing grades on an English exam, what chance is there for the juniors, who are studying the same work?"

Some one has said that "War is Hell." What about English?

The Cam-Hi Widow is no longer in mourning. She has donned white, and is now a prohibition advocate.

Classification of Students.

Next week the school students will be classified, assigned to the classes and sections to which they will be members in the next school year. On Wednesday morning the students in next year's eighth and ninth grades will be classified, and on Friday the students in the tenth and eleventh grades, and those in the grammar grades will be classified.

Senior Class Day Exercises.

On next Thursday, May 29 at 10 a. m. the senior class will give their class day exercises, which will probably establish a precedent for future senior classes to follow. At the exercise the seniors will bury "English" in accordance with a vote of the class. Everyone is invited to attend.

"Chewing Gum."

(A Freshman Theme.)

There is a girl in the tenth grade, who at all times is chewing gum. When she goes to church on Sunday Mornings, she has a very large piece of chewing gum in her mouth. At school, one can go to her desk and find a very large amount of gum all around her desk. It is not good to chew it all the time, though it is not bad to chew it once in a while.

When you are at her home you can see old chews of gum all over the door facings and under the library table. I suppose that the reason that she never has any boy company is because it would break him up to buy her gum. She has been living in Cameron for about five years. I have never seen her at any time but what she had a chew of gum in her mouth. She may sleep with it in her mouth.

This chewing of gum is a very bad habit. Mr. J. N. Crawford, principal of the Cameron High school, said: "No chewing of gum will be allowed

Thanks to PERUNA

Mrs. Kate Marquis, Middleburg, Logan Co., Ohio, writes as follows:

"I have used Peruna with success. It has cured me of catarrh of the head and throat. It is the best medicine for catarrh that I have ever used. I am completely cured. Thanks to Peruna."

Mrs. Marquis is but one of many thousands who know the value of Peruna for that catarrhal condition of the membranes respiration of many of the human race.

I Am Completely Cured

If you object to liquid remedies ask for Peruna in tablet form.

in this school." This may keep her from using such a large amount of gum. Her mouth is very enlarged because she chews so much gum.

M. L. S.

The Commencement Exercises.

The graduating exercises for the seniors of the high school will take place in the auditorium on Friday evening, May 30 at 8:30 o'clock.

A Strong Character.

"I met Mr. Kidd on my way to Sunday School, mamma," said one of the grammar grade boys, "and he asked me if I ever played marbles on Sunday."

"What did you answer?" asked the mother.

"I simply said: 'Get the behind me, Sata!' and walked off and left him" was the triumphant response.

How She Took It.

"It says here the biggest fools have the most beautiful sweethearts."

"Oh Cecil, you flatterer."

The Error.

Irene—They asked me to their reception, but it wasn't because they liked me, it was only because I can sing."

Elsie—"Oh, I'm sure you're mistaken dear."

Hobo Definition.

"What is this here ennui?" asked Monday.

"It's when a fellow gets so lazy that he feels that loafin' is blamed hard work," replied White Hubert.

His Instrument.

Mr. Crawford: "If you are going in for music, which instrument would you choose?"

Fitz Hooks: "Well I've always though I'd like to be a soloist on a cash register."

Figure It Out Yourself.

"How many of you have prepared and original algebra problem in multiplication, as I requested?" asked Miss Reid. Only one hand went up.

"Well, Jessie," said she to Katy

McCall's younger sister, "you may give your problem and the rest of the class may solve it."

"If I had a baby sister, a year old now, and she weighed twenty pounds and kept on gaining two ounces a day until she was seventeen years old, and if the price of living doubles again in the next ten years, how much would my sister's graduation outfit cost? Mother says she would like to know."

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

A reinforced concrete mast 150 feet high has been built for a radio station in China.

The Strong Withstand the Winter Cold Better Than the Weak.

You must have Health, Strength and Endurance to fight Colds, Grip and Influenza.

When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the Winter cold.

GROVE'S TASTELESS CHILL TONIC Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood.

It contains the well-known tonic properties of Quinine and Iron in a form acceptable to the most delicate stomach, and is pleasant to take. You can soon feel its Strengthening, Invigorating Effect. 60c.

Cam-Hi Weekly News

Edited by the Students of the Cameron High School.

Editor-in-Chief.....Jack Logan
Assistant Editor—Mildred Chambers.
Senior Editor.....Homer Peel
Junior Editor.....Henry Tracy
Sophomore Editor.....Lee Howell
Freshman Editor.....Mary Joe Harlan

The Cam-Hi Weekly for this week is somewhat reduced, and probably not quite as newsy as it has been. But we wish to say that because of the final examinations for seniors, and the approaching finals for the undergraduates, to say nothing of the

large amount of preparations for commencement exercises and other programs, the editorial staff as well as the whole student body, has been unable to give the usual amount of work to the edition of the paper. However, we expect to have a good lineup next week which will be the last edition of the paper for this school year.

Graduating Exercises For Seventh Grade Pupils.

The commencement exercises of the seventh grade students will be held in the high school auditorium on Monday night, May 26, at 8:30 o'clock. This is only the second time that exercises of this kind have been given, the first time having been several years ago. All the public and especially the high school students

should be present and get acquainted with the future freshmen of Cam-Hi.

Examinations For Undergraduates.

The freshmen, sophomores and juniors should be making preparations for the fourth term final examinations, which will be given on Monday and Tuesday of next week. Schedules for the time of these examinations have been posted in the study hall.

Operetta To Be At School House.

There is quite a treat in store for the public, for on tomorrow night at 8:30 the high school students under the supervision of Misses Ruth Goddard and Bonnie Brougher, will present an operetta at the high school auditorium.

There will be fifty highly cultured voices to carry one into the realms of the ideal, and twenty four musical selections will convince the audience that the word "operetta" means an opera of the highest type. Come prepared for a surprise because the beauty of the elaborate costumes is so great that there is a possibility of the breath being taken from the audience when they are displayed.

All seats are reserved and there will be only one price for seats, fifty cents for all. Children of all ages may come, but those under twelve must get seats next to their parents or guardians. You cannot afford to miss this program, when each of the twenty-four musical selections will cost only two cents, while at the same time, there will be so much else to be seen and heard. The proceeds will pay for the high school piano, which of course is almost an absolute essential part of the school.

Following is the cast of characters for the program:

O Hara San, Miss Blossom—Owen Bacon.

O Kashi Kintara—Cecil Barmore. Kanaya, father of O Hara San—Leland Denson.

O Toya San, mother of O Hara San—Esther Fielder.

O Toku San, chief of the Maids—

AN EXPLANATION OF
THE AMENDMENTS

House Joint Resolution No. 1.

This is to amend Section 20, Article XVI of our State Constitution and is what is known as the State-wide Prohibition amendment. Its object is to prohibit the manufacture and sale in Texas of all intoxicating liquors, except for sacramental, medicinal, scientific and mechanical purposes. This question has been under discussion before the people for more than ten years and they understand it thoroughly. They have at last put John Barleycorn to the block and the axe is in their hands and it is for them to say whether they will grant him a pardon or finish the job at once. If you favor the destruction of liquor power in our State, vote for the amendment.

Senate Joint Resolution No. 7.

Proposes to amend Section 2, Article VI of the Constitution, relating to suffrage. Section 2 as it now stands, provides among other things that males only shall vote and, "that every male person of foreign birth who at any time before an election shall have declared his intention to become a citizen of the United States and shall have resided in the state one year and in the county six months, shall be deemed a qualified voter."

The proposed amendment has two purposes: (1) To permit women, upon payment of a poll tax, to vote upon equal terms with men. We need not stop to argue the right of women to vote. She has been a patient taxpayer ever since our Government was established and in every national crisis she has answered her country's call. Our great President, Woodrow Wilson, our United States Senators, Charles A. Culberson and Morris Sheppard and many of the states of the union have declared for woman suffrage.

(2). It proposes to take away the ballot from aliens and non-citizens who at present are permitted to vote in Texas. Is it not singular that our State should have a constitution which permits a Mexican bandit and a subject of the Kaiser who cannot speak our language and neither understands nor respects our Government, to vote in every election, and yet refuses the ballot to our mothers and wives? This provision was put in the constitution nearly fifty years ago for the purpose of inviting immigration, upon the belief that those who came would become citizens and give their full allegiance to our state. But when a great crisis came, upon the declaration of war, we discovered that there were thousands in our state, who had been choosing our officers and making our laws by their votes and yet were all under bonds of allegiance to the government of our enemy. Is it not unsafe for us to trust the destiny of our State to those who are not willing to trust their citizenship to us? If you favor full American citizenship for all voters, vote for this amendment. If you favor alien voting, vote against it.

Senate Joint Resolution No. 13.

To amend Section 5, Article IV of the Constitution. This relates to the Governor's salary. At present he is paid Four Thousand Dollars and this amendment increases his compensation to Ten Thousand Dollars a year. If you think Four Thousand is enough for our great state to pay its Governor, vote against this amendment. If you believe Ten Thousand is not too much, vote for it.

House Joint Resolution No. 19.

Proposes to amend Section 50, Article III so as to permit the State to lend its credit to heads of families at a low rate of interest for the purpose of buying a home of not exceeding two hundred acres. It is modeled after the Federal Farm Loan Bank, act of congress which is now in successful operation. Oklahoma has had a similar provision for ten years which is very popular. If you think it would be safe for Texas to give this aid to its citizens, vote for the amendment. On the other hand, if you do not believe it would be wise, vote against it.

TIME IS UP

Good bye to the saloon--Keep Texas dry. The tax payers have learned that the open saloon means added crime and poverty when they must foot the bills. The people are saying in state after state, in county after county "TIMES UP. You have failed to show your right to be. You will have to go." Let them go for good next Saturday.

SATURDAY IS THE DAY

"All will observe that those opposed to prohibition are much more active now than during the war. One does not have to go far to find the explanation of this. Germany was so intimately connected with the business in this country that one could not favor it without laying himself liable to a charge of disloyalty. Just keep in mind that the same people are trying to run the liquor business now who had it in hand before the war. They are not friends of this government--never have been and never will be." Vote them out of Texas for good and always.

Lloyd George said "We are fighting Germany, Austria and drink, Drink is the worst of our enemies. It does us more harm than all the submarines put together."

Mr. Farmer:

Quit Plowing long enough to go and VOTE SATURDAY.

Mr. Cotton chopper:

Quit Hoeing long enough to go and VOTE SATURDAY.

Mr. Bookkeeper:

Close your books long enough to go VOTE SATURDAY.

Mr. Merchant:

Quit your business long enough to go and VOTE SATURDAY.

Mr. Harvester:

Who is reaping stop that reaper long enough to go and VOTE SATURDAY.

All You Women:

All the women of Milam County help the men to go to the polls SATURDAY and FOREVER KEEP TEXAS DRY.

Mr. Mechanic:

Quit your work long enough to VOTE SATURDAY.

Mr. Lineman:

Come down off that pole and KEEP TEXAS DRY, SATURDAY 24th. inst.

Miss Telephone Operator:

Let everybody know Saturday is the day to FOREVER KEEP TEXAS DRY.

OFFICIAL BALLOT

FOR Prohibition.

AGAINST Prohibition

FOR the Amendment to Section 2, Article 6, of the Constitution of the State of Texas, providing qualifications for male and female voters.

AGAINST the Amendment to Section 2, Article 6, of the Constitution of the State of Texas, providing qualifications for male and female voters.

FOR the Amendment to Section 5 of Article IV of the Constitution of the State of Texas in regard to the salary of the Governor of the State of Texas.

AGAINST the Amendment to Section 5 of Article IV of the Constitution of the State of Texas in regard to the salary of the Governor of the State of Texas.

FOR the Amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes.

AGAINST the Amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes.

NATIONAL AMENDMENT INEFFECTIVE.

Vast sums of money will be spent in unrighteous propaganda and in the employment of shrewd and conscienceless legal talent to defeat the will of the American people. Let it be borne in mind that while the amendment to the Federal constitution has been regularly ratified Congress has yet to pass laws for its enforcement. If, through neglect or for any reason, Texas fails to pass the State-wide prohibition amendment in May it will be interpreted as a rejection of the principle of prohibition for the Nation. If those States whose legislatures ratified the amendment should by popular vote reject prohibition their representatives in Congress would have poor encouragement to pass adequate enforcement measures. It on the other hand this State rolls up a great majority for the amendment to the State Constitution it will put our representatives in the National Legislature on notice that we expect the enactment of such laws as will make possible the complete destruction of this evil which has cursed this Nation through all the generations of its history.

WHO CANNOT VOTE
ON THE AMENDMENTS

Mr. J. W. Garmon,
Rockdale, Texas,
Dear Sir:

Replying to your inquiry, beg to advise that people of German and Austrian birth are not entitled to vote in the election May 24th, unless they have completed their naturalization. In other words, they cannot vote on declaration to become citizens.

People born in other countries than Germany and Austria may vote on declaration to become citizens only when their declarations were filed less than seven years prior to May 24th.

Yours very truly,
ROY BASKIN,

County Attorney, Milam County.

Don't Put it Off = Let's Put it Over

By Your Vote May 24th 1919, Put Prohibition into the Constitution or have Continual election agitation. "LET'S FINISH THE JOB."
